MEDICAL AND SANITARY.

Proceedings of the Hon'ble the Lieutenant-Governor in the Home (Medical and Sanitary) Department, No. 92, dated 21st February 1889.

READ—

Letter from the Inspector-General of Civil Hospitals, Punjab, No. 2417, dated 1st August 1888.

REMARKS.—The question whether Local Bodies should or should not be allowed to entertain Hakíms has been under the consideration of Government in various shapes for the last three or four years. In December 1887 the Inspector-General of Civil Hospitals was asked to forward with his opinion any suggestions for the regulation of the appointment of Hakíms by Local Bodies which the Commissioners of Cis-Indus Divisions might be disposed to offer. This Dr. Dallas has done in the letter read in the preamble.

2. In the course of the correspondence which has taken place on this subject, the question of prohibiting the employment of Hakíms has been raised by many officers and by the Government of India, but as in some districts native public opinion is in favour of the continued employment of this class of medical practitioners the Lieutenant-Governor does not wish to go so far as to prohibit it altogether.

3. Sir James Lyall, however, agrees with the opinion expressed in the letter of the Inspector-General of Civil Hospitals read above that the orders now passed must be clearly understood as intended to restrict the employment of Hakíms and not to encourage it. The policy of Government is that medical expenditure from public funds by way of pay or allowances must be primarily and ordinarily restricted to the remuneration of men who have received diplomas or certificates from Government Medical Schools and Colleges, and who profess only to practice the system of medicine taught therein; and the grant of pay or allowances to men calling themselves Hakíms or Baids must be allowed only in exceptional cases and as a cheap way of supplementing the ordinary establishment of Assistant Surgeons or Hospital Assistants in large towns where that establishment is insufficient and cannot be increased, or in

small towns or rural tracts where there is no such establishment and it is not at present possible to supply it. In order to make sure that these principles are observed, the Commissioner's sanction should in future be required before any Hakíms are granted pay or allowances by any Local Body. The Commissioner should also have power—

(1) to dismiss any Hakím whom he finds after enquiry to be useless or inefficient; and

(2) to reduce the pay of any Hakím if he considers his pay unnecessarily high.

4. The Lieutenant-Governor thinks that it should also be ruled that in future no men calling themselves Hakíms should be employed by Local Bodies unless—

(a) they have passed one of the Hakím examinations prescribed by the Lahore University; or

(b) have passed the final examination in the Lahore Medical College or Lahore Medical School, but have not accepted or obtained appointment as Assistant Surgeon or Hospital Assistant; or

(c) are hereditary Hakíms and have continuously practised the profession for not less than seven years and have acquired a good local reputation for skill and care of their patients.

The pay or allowances given to Hakíms must be regarded not as full pay for their services, but as a mere grant-in-aid to be given on condition of their promising to attend gratuitously paupers or indigent people in some tract or locality, and to assist therein in distribution of medicines in times of epidemics. They must look for their main income to fees from those able to pay them. The allowance, therefore, must always be small: it should not exceed Rs. 10 per mensem in the case of men who have not passed a University or Medical School or College Examination, and should generally be less, and in the case of passed men should not exceed Rs. 15 per mensem except with the special sanction of Government. Such allowance may, however, if the Local Board wishes, be supplemented by the grant of a supply of European medicines either free or on commission sale.

5. The Lieutenant-Governor would further rule that all Hakíms employed by Local Bodies must keep up registers of patients open to inspection by the Commissioner, Deputy Commissioner and Civil Surgeon, as well as by the Local Body.

6. The provisions of the District Boards Act and Punjab Municipal Act require that rules for the guidance of Boards and Committees in the matter of the entertainment of servants possessing professional skill shall be duly passed by Government in accordance with the usual procedure. A draft of the rules framed to carry out the policy embodied in the above remarks is annexed to this Resolution; and, as stated in the Notification publishing the draft, any further advice or criticism on these proposals which may be received within the next six weeks will be duly considered by the Lieutenant-Governor.

ORDER.—Ordered that this Resolution be communicated for information and guidance to the Inspector-General of Civil Hospitals and all Commissioners and Deputy Commissioners;

Also that it be published with the annexed Notification and draft of rules in the *Punjab Government Gazette*.

By order of the Hon'ble the Lieutenant-Governor,

C. L. TUPPER,

Secretary to Government, Punjab.

The 21*st February* 1889.

No. 93.—*Notification.*—In accordance with Section 60 of the Punjab District Boards Act, No. XX of 1883, and Section 159 of the Punjab Municipal Act, No. XIII of 1884, the Lieutenant-Governor hereby publishes for the information of persons interested the accompanying draft of proposed rules for the appointment of Hakíms and Baids by Boards and Committees.

2. This draft will be taken into consideration after six weeks from this date, and the Lieutenant-Governor before making the rules will receive and consider any objection or any suggestion which may be made by any person with respect to the draft before the date specified.

Draft of Rules for the appointment of Hakíms and Baids by Boards and Committees.

I.—After the 1st May 1889 no persons calling themselves Hakíms or Baids shall be employed by Boards or Committees unless they—

(1) have passed the Hakím-i-Háziq or Vaidya Examination of the Punjab University; or

(2) have passed the final examination in the Lahore Medical College or Lahore Medical School without accepting or obtaining appointment as Assistant Surgeons or Hospital Assistants; or

(3) belong by birth to a hereditary class of Hakíms or Baids, and have continuously practised the profession of such class for not less than seven years and have acquired a good local reputation for skill and care of their patients.

II.—The remuneration paid by Boards or Committees to Hakíms or Baids entertained by them under these rules shall not exceed in the case of men who have not passed a University or Medical School or College Examination Rs. 10 per mensem, and should ordinarily be less; or in the case of men who have passed such examination, Rs. 15 per mensem, except with the special sanction of Government.

III.—A Board or Committee may supplement the remuneration allowed to a Hakím or Baid under Rule II by the grant of a supply of European medicines either free or on commission sale.

IV.—Every Hakím or Baid employed by a Board or Committee must maintain a register of patients attended by him open to the inspection of the Commissioner, Deputy Commissioner and Civil Surgeon, and of the Board or Committee employing him.

V.—No Board or Committee shall grant any pay or allowances to any Hakím or Baid not heretofore employed by it except with the previous sanction of the Commissioner of the Division.

VI.—The Commissioner of the Division is hereby empowered—

(1) to dismiss any Hakím or Baid employed by a Board or Committee whom he finds after enquiry to be inefficient; and

(2) to reduce the pay of any Hakím or Baid so employed if he considers the same unnecessarily high.

VII.—These rules apply to the Boards and Committees named in the Schedule hereto annexed.

RESOLUTION.—The Governor-General in Council has had under consideration the conditions as regards pension and leave which should attach to officers of Government on Foreign Service, and in codifying the rules which have from time to time been passed on this subject, and which have been grouped under Sections 8 to 11 of the Civil Pension Code, has considered it necessary in some respects to revise them.

2. It is necessary, in the first place, to distinguish between three different kinds of Foreign Service, as although the existing rules do not make this distinction, a difference is in fact observed in the manner of applying the rules. This distinction is defined as follows :—

A—Foreign service is of three kinds, *viz.* :—

First—When an officer of Government is allowed to take service under an employer who is not under the orders of Government, and is allowed while in such service to maintain his claim to *pension*, or to *pension* and leave, in the same way as if he were still in the service of Government.

Examples.—Officers lent to Egypt or to the Colonies or to a Native State (not administered by Government) or a Port Trust or a Municipality or a Railway Company.

Second—When Government, having obtained control over or having received in trust certain funds other than *General Revenues*, creates special appointments or special establishments at the cost of the said funds for the purpose of exercising such control or trust.

Examples.—Administrators of Native States, Managers of Courts of Wards' Estates, Officers serving in Berar.

Third—When additions are made to an existing service or an existing establishment to provide for work which has to be done under the supervision and control of the supervising and controlling officers of the service or establishment, the cost of the additions being charged to, or recovered from, the persons or bodies in whose interest the work is done.

Examples.—Political Agents appointed at the cost of the States concerned ; Assistant Opium Agents in Native States and their Establishments ; Establishments employed in Government offices for the control of local funds, the members of which are appointed and controlled by Government, but the cost of which is recovered from the foreign services or local funds concerned.

B—(*a*) Foreign service of the first and second kinds qualifies for leave or for pension only in the case of officers transferred by competent authority from qualifying service under Government with the privilege of retaining their title to leave or pension, which in all but special cases is made subject to the payment of contributions to Government in respect of the cost of such leave or *pension*.

(*b*) Foreign service of the third kind qualifies for leave and *pension* in the same way as service in the rest of the department or establishment, of which the appointment forms a part ; but arrangements are made for the recovery of the cost.

3. In the case of foreign service of the first kind, there is reason to think that it is occasionally sought by officers who have very little claim upon the Government of India that they should retain any privileges when passing into a foreign employer's service. The Governor-General in Council accordingly desires to impose this new restriction upon transfers to such service :

The officer transferred must either have ten years' qualifying service (for pension) under Government or belong to one of the following services :—The Covenanted Civil Service ; the Army ; the "Commission" of any non-Regulation Province ; the regular Political services ; the Superior Service of the Public Works (including Railway, Revenue and Account Branches), Telegraph, Survey or Forest Departments ; the graded Educational Service ; the Indian Marine.

4. Again, it is not desirable that the contributions of officers in this class of service or their pensions or leave allowances should be regulated by the salaries which they from time to time receive from their foreign employer, as these salaries are often regulated by considerations different from those which apply in the ordinary services of the Government of India ; and there are occasions on which the system has led to abuses. It is considered better to take a standard of salary which shall be independent of the

foreign employer, and to regulate the officer's relations to the Government of India by this assumed salary instead of by that which he actually draws. With this view the following scale is laid down :—

C—Whatever may be the actual pay and allowances drawn by an officer in foreign service from his employers, his salary, for the purpose of calculating his leave allowances and *pension*, and of requiring a contribution towards the cost of such leave allowances and *pension*, shall be assumed to be as follows :—

(a) If he is a member of any of the special services mentioned in paragraph 3 above—

	Covenanted Civil Servants.	Other Special Services.
(i) During the first two years of his service reckoning from the first day of April next following his arrival in India ...	400	350
(ii) For each subsequent year of service ...	100	50
Up to a maximum of	2,500	Twice the maximum Furlough allowance admissible to the officer concerned (1).

(1) *Example.*—If an officer's furlough allowance is subject to a maximum of £250 per quarter, and the official rate of exchange for the year is 1 shilling 4 pence per rupee, the maximum on which a contribution is required would be Rs. 2,500 per mensem. If the furlough allowance is subject to a maximum of £120 per quarter, the maximum on which a contribution is required would be Rs. 1,200 per mensem.

NOTE.—Percentage deductions (*e. g.*, for Civil Fund in the case of a Covenanted Civil Servant) will be calculated upon the "assumed salary."

(b) If the officer is not a member of any of the above services, then—

(i) If he belongs to a graded service, his name will be retained on it (as seconded), promotion from grade to grade being given to him in due course, and his assumed pay will be that of the grade in which from time to time he is.

(ii) If he does not belong to a graded service, the assumed pay will be, and will remain, that which he last drew when in Government employ.

5. Further, a re-examination under existing conditions of the calculations on which the contributions were originally based leads to the conclusion that they do not now adequately represent the value of the pension or allowances undertaken. There seems to be no reason why—in the case of the first kind of foreign service—the Government should not require full reimbursement, and for this class of service the following rates are now laid down :—

D—From every officer transferred to Foreign service of the first kind, who does not wholly resign the service of the British Government, or who is not, for recorded special and public reasons, exempted wholly or partly from the operation of these rules, a contribution is levied as follows :—

(i) In the case of officers of the special services mentioned in paragraph 3 on account of leave allowances (excepting privilege leave) and *pension*—one-fourth of the assumed pay.

(ii) In the case of others, on account of *pension* only—one-eighth of the assumed pay.

Provided that, in the case of an officer whose pension is subject to the maximum of Rs. 5,000 a year, the contribution will not be calculated on a higher salary than Rs. $833\frac{1}{3}$ a month.

6. In Foreign service of the second kind, the salary is for the most part fixed and controlled by the Government under the rules ordinarily applicable to salaries of Government appointments. The rate of contribution applicable to this case will be as follows :—

(*a*) In the case of a Covenanted Civil Servant, a Military Officer, a Civil Engineer, and any other officer subject to the more favourable Leave Rules, one-fourth of his actual sanctioned *salary*.

(*b*) In the case of an officer subject to the less favourable Leave Rules—

(i) If he is of gazetted standing, 20 per cent. (one-fifth) of his actual sanctioned *salary*.

(ii) If he be of clerical standing, $16\frac{2}{3}$ per cent. (one-sixth) of his actual sanctioned *salary*.

That is, if the officer's sanctioned *salary* is Rs. 1,000, the Foreign funds must pay him Rs. 1,250, or Rs. 1,200, or Rs. $1,166\frac{2}{3}$, as the case may be ; he will retain the Rs. 1,000, and pay the rest to Government by way of contribution.

Provided that, in the case of an officer whose pension is subject to the maximum of Rs. 5,000 a year, the contribution will not be calculated on a higher salary than Rs. $833\frac{1}{3}$ a month. Nothing in this rule shall be deemed to entitle an officer to include "acting allowances" in "Emoluments" for purpose of calculation of *pension*.

NOTE.—For a Covenanted Civil Servant a sanctioned *salary* of Rs. 1,000 in Foreign service is the equivalent of a sanctioned *salary* of Rs. $1,041\frac{2}{3}$ in Government service; as the latter is subject to 4 per cent. deduction, while the former is not. The Civil Fund deductions will be calculated at a percentage on the Rs. 1,000.

(*c*) From inferior servants the contribution required is one anna in the rupee for pension only ; the Government of India pays no leave allowances to such servants.

7. The rates of contribution prescribed in this Resolution apply to all transfers to Foreign service made after this date. For officers who have already been transferred to Foreign Service, the rates hitherto in force will continue to operate, until the new rates are applied under the orders, in each case, of the Local Government which has transferred the services of the officers concerned. But in all cases in which under existing rules the salary of an officer may not be increased without the sanction of the Government of India, such sanction will, in future, if the officer remains under the old rates of contribution, be subject to the condition that the increase shall not be liable to contribution and shall not be reckoned for any purpose of leave allowances or *pension*. This condition, however, does not apply to officers of the Public Works Establishment who have already been transferred to the service of Railway Companies upon conditions agreed upon between the Companies and the Government.

8. Foreign Service of the third kind is not properly speaking Foreign Service at all, but the conditions of it—so far as reimbursement to Government of the cost of leave and pension—are based upon the principles applicable to Foreign Service. The rules which are laid down with reference to it are more clearly expressed as follows :—

In the case of Foreign Service of the third kind the relations between Government and the officers employed in respect to their pensions and leave allowances are the same as if they were in ordinary Government service.

The cost of the service should be recovered from the person or body on whose account the service is rendered. This recovery should ordinarily be reckoned upon the gross sanctioned cost, and should not be made with reference to the salaries taken separately. It should, unless there are special reasons to the contrary, include not only the current charge, but a further amount calculated according to the rates prescribed in paragraph 6 above, sufficient to provide for pensions and leave allowances (which may vary from time to time according to acting and other arrangements).

These contributions should be recovered by the direct action of the department concerned, the officers themselves not being responsible for it.

9. The Governor-General in Council is pleased also to withdraw the following rule of the existing Code, except as regards any officers who are already paying contributions under it :—

An officer who is paid from a Local Fund may, on first appointment, with the permission of the Local Government, and upon production of a medical certificate under Section 106, Rule 2, subscribe for a pension under this section. The rules of the Code will then apply to such officer so long as he continues to subscribe for pension, as if he were paid from the General Revenues.

In lieu of this rule the following is substituted :—

The administrators of a *Local Fund* which banks with a Government Treasury may, with the permission of the Local Government, make a permanent arrangement for contributing for pensions from the *General Revenues* for its permanent employés or for any specified class of them by paying to Government an amount equal to one-ninth of the sanctioned salaries of the several appointments ; provided that the bills on which the establishment charges are drawn from the treasury are subject to the audit of the *Accountant-General* under the rules from time to time prescribed for the audit of Government establishment charges, and that the contribution is added to the establishment bill and paid from the Local Fund by transfer credit to the *General Revenues* at the time the establishment bill is cashed.

10. These new conditions as to Foreign Service will be incorporated with the other rules on the subject in the Revised Edition of the Code now under preparation.

ORDERED, that this Resolution be communicated to the several Departments of the Government of India ; to all Local Governments and Administrations ; to the Director-General of the Post Office of India ; to the Mint and Assay Masters, Calcutta and Bombay ; to the Commissioner of Northern India Salt Revenue ; to the Superintendent of Government Printing, India ; to the Comptroller-General ; and to all Accountants-General and Comptrollers, for information.

MEDICAL AND SANITARY.

[Third publication.]

Proceedings of the Hon'ble the Lieutenant-Governor in the Home (Medical and Sanitary) Department, No. 92, dated 21st February 1889.

READ—

Letter from the Inspector-General of Civil Hospitals, Punjab, No. 2417, dated 1st August 1888.

REMARKS.—The question whether Local Bodies should or should not be allowed to entertain Hakíms has been under the consideration of Government in various shapes for the last three or four years. In December 1887 the Inspector-General of Civil Hospitals was asked to forward with his opinion any suggestions for the regulation of the appointment of Hakíms by Local Bodies which the Commissioners of Cis-Indus Divisions might be disposed to offer. This Dr. Dallas has done in the letter read in the preamble.

2. In the course of the correspondence which has taken place on this subject, the question of prohibiting the employment of Hakíms has been raised by many officers and by the Government of India, but as in some districts native public opinion is in favour of the continued employment of this class of medical practitioners the Lieutenant-Governor does not wish to go so far as to prohibit it altogether.

3. Sir James Lyall, however, agrees with the opinion expressed in the letter of the Inspector-General of Civil Hospitals read above that the orders now passed must be clearly understood as intended to restrict the employment of Hakíms and not to encourage it. The policy of Government is that medical expenditure from public funds by way of pay or allowances must be primarily and ordinarily restricted to the remuneration of men who have received diplomas or certificates from Government Medical Schools and Colleges, and who profess only to practice the system of medicine taught therein; and the grant of pay or allowances to men calling themselves Hakíms or Baids must be allowed only in exceptional cases and as a cheap way of supplementing the ordinary establishment of Assistant Surgeons or Hospital Assistants in large towns where that establishment is insufficient and cannot be increased, or in small towns or rural tracts where there is no such establishment and it is not at present possible to supply it. In order to make sure that these principles

are observed, the Commissioner's sanction should in future be required before any Hakíms are granted pay or allowances by any Local Body. The Commissioner should also have power—

(1) to dismiss any Hakím whom he finds after enquiry to be useless or inefficient; and

(2) to reduce the pay of any Hakím if he considers his pay unnecessarily high.

4. The Lieutenant-Governor thinks that it should also be ruled that in future no men calling themselves Hakíms should be employed by Local Bodies unless—

(*a*) they have passed one of the Hâkím examinations prescribed by the Lahore University; or

(*b*) have passed the final examination in the Lahore Medical College or Lahore Medical School, but have not accepted or obtained appointment as Assistant Surgeon or Hospital Assistant; or

(*c*) are hereditary Hakíms and have continuously practised the profession for not less than seven years and have acquired a good local reputation for skill and care of their patients.

The pay or allowances given to Hakíms must be regarded not as full pay for their services, but as a mere grant-in-aid to be given on condition of their promising to attend gratuitously paupers or indigent people in some tract or locality, and to assist therein in distribution of medicines in times of epidemics. They must look for their main income to fees from those able to pay them. The allowance, therefore, must always be small: it should not exceed Rs. 10 per mensem in the case of men who have not passed a University or Medical School or College Examination, and should generally be less, and in the case of passed men should not exceed Rs. 15 per mensem except with the special sanction of Government. Such allowance may, however, if the Local Board wishes, be supplemented by the grant of a supply of European medicines either free or on commission sale.

5. The Lieutenant-Governor would further rule that all Hakíms employed by Local Bodies must keep up registers of patients open to inspection by the Commissioner, Deputy Commissioner and Civil Surgeon, as well as by the Local Body.

6. The provisions of the District Boards Act and Punjab Municipal Act require that rules for the guidance of Boards and Committees in the matter of the entertainment of servants possessing professional skill shall be duly passed by Government in accordance with the usual procedure. A draft of the rules framed to carry out the policy embodied in the above remarks is annexed to this Resolution; and, as stated in the Notification publishing the draft, any further advice or criticism on these proposals which may be received within the next six weeks will be duly considered by the Lieutenant-Governor.

ORDER.—Ordered that this Resolution be communicated for information and guidance to the Inspector-General of Civil Hospitals and all Commissioners and Deputy Commissioners;

Also that it be published with the annexed Notification and draft of rules in the *Punjab Government Gazette.*

By order of the Hon'ble the Lieutenant-Governor,

C. L. TUPPER,

Secretary to Government, Punjab.

[Third publication.]

The 21*st February* 1889.

No. 93.—*Notification.*—In accordance with Section 60 of the Punjab District Boards Act, No. XX of 1883, and Section 159 of the Punjab Municipal Act, No. XIII of 1884, the Lieutenant-Governor hereby publishes for the information of persons interested the accompanying draft of proposed rules for the appointment of Hakíms and Baids by Boards and Committees.

2. This draft will be taken into consideration after six weeks from this date, and the Lieutenant-Governor before making the rules will receive and consider any objection or any suggestion which may be made by any person with respect to the draft before the date specified.

Draft of Rules for the appointment of Hakíms and Baids by Boards and Committees.

I.—After the 1st May 1889 no persons calling themselves Hakíms or Baids shall be employed by Boards or Committees unless they—

(1) have passed the Hakím-i-Háziq or Vaidya Examination of the Punjab University; or

(2) have passed the final examination in the Lahore Medical College or Lahore Medical School without accepting or obtaining appointment as Assistant Surgeons or Hospital Assistants; or

(3) belong by birth to a hereditary class of Hakíms or Baids, and have continuously practised the profession of such class for not less than seven years and have acquired a good local reputation for skill and care of their patients.

II.—The remuneration paid by Boards or Committees to Hakíms or Baids entertained by them under these rules shall not exceed in the case of men who have not passed a University or Medical School or College Examination Rs. 10 per mensem, and should ordinarily be less ; or in the case of men who have passed such examination, Rs. 15 per mensem, except with the special sanction of Government.

III.—A Board or Committee may supplement the remuneration allowed to a Hakím or Baid under Rule II by the grant of a supply of European medicines either free or on commission sale.

IV.—Every Hakím or Baid employed by a Board or Committee must maintain a register of patients attended by him open to the inspection of the Commissioner, Deputy Commissioner and Civil Surgeon, and of the Board or Committee employing him.

V.—No Board or Committee shall grant any pay or allowances to any Hakím or Baid not heretofore employed by it except with the previous sanction of the Commissioner of the Division.

VI.—The Commissioner of the Division is hereby empowered—

(1) to dismiss any Hakím or Baid employed by a Board or Committee whom he finds after enquiry to be inefficient; and

(2) to reduce the pay of any Hakím or Baid so employed if he considers the same unnecessarily high.

VII.—These rules apply to the Boards and Committees named in the Schedule hereto annexed.

Proceedings of the Hon'ble the Lieutenant-Governor in the Home (Medical and Sanitary) Department, No. 92, dated 21st February 1889.

READ—

Letter from the Inspector-General of Civil Hospitals, Punjab, No. 2417, dated 1st August 1888.

REMARKS.—The question whether Local Bodies should or should not be allowed to entertain Hakíms has been under the consideration of Government in various shapes for the last three or four years. In December 1887 the Inspector-General of Civil Hospitals was asked to forward with his opinion any suggestions for the regulation of the appointment of Hakíms by Local Bodies which the Commissioners of Cis-Indus Divisions might be disposed to offer. This Dr. Dallas has done in the letter read in the preamble.

2. In the course of the correspondence which has taken place on this subject, the question of prohibiting the employment of Hakíms has been raised by many officers and by the Government of India, but as in some districts native public opinion is in favour of the continued employment of this class of medical practitioners the Lieutenant-Governor does not wish to go so far as to prohibit it altogether.

3. Sir James Lyall, however, agrees with the opinion expressed in the letter of the Inspector-General of Civil Hospitals read above that the orders now passed must be clearly understood as intended to restrict the employment of Hakíms and not to encourage it. The policy of Government is that medical expenditure from public funds by way of pay or allowances must be primarily and ordinarily restricted to the remuneration of men who have received diplomas or certificates from Government Medical Schools and Colleges, and who profess only to practice the system of medicine taught therein; and the grant of pay or allowances to men calling themselves Hakíms or Baids must be allowed only in exceptional cases and as a cheap way of supplementing the ordinary establishment of Assistant Surgeons or Hospital Assistants in large towns where that establishment is insufficient and cannot be increased, or in small towns or rural tracts where there is no such establishment and it is not at present possible to supply it. In order to make sure that these principles are observed, the Commissioner's sanction should in future be required before

any Hakíms are granted pay or allowances by any Local Body. The Commissioner should also have power—

(1) to dismiss any Hakím whom he finds after enquiry to be useless or inefficient; and

(2) to reduce the pay of any Hakím if he considers his pay unnecessarily high.

4. The Lieutenant-Governor thinks that it should also be ruled that in future no men calling themselves Hakíms should be employed by Local Bodies unless—

(*a*) they have passed one of the Hakím examinations prescribed by the Lahore University; or

(*b*) have passed the final examination in the Lahore Medical College or Lahore Medical School, but have not accepted or obtained appointment as Assistant Surgeon or Hospital Assistant; or

(*c*) are hereditary Hakíms and have continuously practised the profession for not less than seven years and have acquired a good local reputation for skill and care of their patients.

The pay or allowances given to Hakíms must be regarded not as full pay for their services, but as a mere grant-in-aid to be given on condition of their promising to attend gratuitously paupers or indigent people in some tract or locality, and to assist therein in distribution of medicines in times of epidemics. They must look for their main income to fees from those able to pay them. The allowance, therefore, must always be small: it should not exceed Rs. 10 per mensem in the case of men who have not passed a University or Medical School or College Examination, and should generally be less, and in the case of passed men should not exceed Rs. 15 per mensem except with the special sanction of Government. Such allowance may, however, if the Local Board wishes, be supplemented by the grant of a supply of European medicines either free or on commission sale.

5. The Lieutenant-Governor would further rule that all Hakíms employed by Local Bodies must keep up registers of patients open to inspection by the Commissioner, Deputy Commissioner and Civil Surgeon, as well as by the Local Body.

6. The provisions of the District Boards Act and Punjab Municipal Act require that rules for the guidance of Boards and Committees in the matter of the entertainment of servants possessing professional skill shall be duly passed by Government in accordance with the usual procedure. A draft of the rules framed to carry out the policy embodied in the above remarks is annexed to this Resolution; and, as stated in the Notification publishing the draft, any further advice or criticism on these proposals which may be received within the next six weeks will be duly considered by the Lieutenant-Governor.

ORDER.—Ordered that this Resolution be communicated for information and guidance to the Inspector-General of Civil Hospitals and all Commissioners and Deputy Commissioners;

Also that it be published with the annexed Notification and draft of rules in the *Punjab Government Gazette*.

By order of the Hon'ble the Lieutenant-Governor,

C. L. TUPPER,

Secretary to Government, Punjab.

[Fourth publication.]

The 21st February 1889.

No. 93.—*Notification.*—In accordance with Section 60 of the Punjab District Boards Act, No. XX of 1883, and Section 159 of the Punjab Municipal Act, No. XIII of 1884, the Lieutenant-Governor hereby publishes for the information of persons interested the accompanying draft of proposed rules for the appointment of Hakíms and Baids by Boards and Committees.

2. This draft will be taken into consideration after six weeks from this date, and the Lieutenant-Governor before making the rules will receive and consider any objection or any suggestion which may be made by any person with respect to the draft before the date specified.

Draft of Rules for the appointment of Hakíms and Baids by Boards and Committees.

I.—After the 1st May 1889 no persons calling themselves Hakíms or Baids shall be employed by Boards or Committees unless they—

(1) have passed the Hakím-i-Háziq or Vaidya Examination of the Punjab University; or

(2) have passed the final examination in the Lahore Medical College or Lahore Medical School without accepting or obtaining appointment as Assistant Surgeons or Hospital Assistants; or

(3) belong by birth to a hereditary class of Hakíms or Baids, and have continuously practised the profession of such class for not less than seven years and have acquired a good local reputation for skill and care of their patients.

II.—The remuneration paid by Boards or Committees to Hakíms or Baids entertained by them under these rules shall not exceed in the case of men who have not passed a University or Medical School or College Examination Rs. 10 per mensem, and should ordinarily be less; or in the case of men who have passed such examination, Rs. 15 per mensem, except with the special sanction of Government.

III.—A Board or Committee may supplement the remuneration allowed to a Hakím or Baid under Rule II by the grant of a supply of European medicines either free or on commission sale.

IV.—Every Hakím or Baid employed by a Board or Committee must maintain a register of patients attended by him open to the inspection of the Commissioner, Deputy Commissioner and Civil Surgeon, and of the Board or Committee employing him.

V.—No Board or Committee shall grant any pay or allowances to any Hakím or Baid not heretofore employed by it except with the previous sanction of the Commissioner of the Division.

VI.—The Commissioner of the Division is hereby empowered—

(1) to dismiss any Hakím or Baid employed by a Board or Committee whom he finds after enquiry to be inefficient; and

(2) to reduce the pay of any Hakím or Baid so employed if he considers the same unnecessarily high.

VII.—These rules apply to the Boards and Committees named in the Schedule hereto annexed.

The 28th March 1889.

No. 367.—Notification.—With deep regret the Lieutenant-Governor records the death of Colonel E. G. Wace, First Financial Commissioner of the Punjab, which occurred at Lahore on the morning of the 24th March 1889 after 26 years of very distinguished service in the Punjab Commission. His great abilities and high character have made him for years past a tower of strength to the administration, and his loss, which the whole Province is now deploring, is greatly due to his enthusiastic devotion to his work which never allowed him to spare himself or to take sufficient relaxation.

He was conspicuous for his sympathy with the people and knowledge of their customs and circumstances, and for his accurate acquaintance with the revenue administration in every principle and detail. Very early in his career he was selected for the specially difficult task of the settlement of the Hazára District, for which work he received the special commendation of Government. Later on he compiled with great effect the replies for the Province to the enquiries of the Famine Commission, and subsequently as Settlement Commissioner and Financial Commissioner he laboured with rare perseverance and success to introduce those reforms in the revenue system which the Commission recommended, and which the Government of India had approved.

He was selected by the Local Government to draft the Bills for the new Land Revenue and Tenancy Laws of the Province, and as Additional Member of the Legislative Council he had charge of those most important enactments in the Session in which they were finally passed.

In him the administration has lost a great part of its strength; the Lieutenant-Governor and many officers of the Commission a valued personal friend. The respect and regret of all have followed to the grave a man whose amiability and unselfish devotion to public duty will long be remembered by the people of the country and by those brother officers who now deplore a sudden loss irreparable to themselves and grievous to the administration.

MEDICAL AND SANITARY.

Proceedings of the Hon'ble the Lieutenant-Governor in the Home (Medical and Sanitary) Department, No. 92, dated 21st February 1889.

READ—

Letter from the Inspector-General of Civil Hospitals, Punjab, No. 2417, dated 1st August 1888.

REMARKS.—The question whether Local Bodies should or should not be allowed to entertain Hakíms has been under the consideration of Government in various shapes for the last three or four years. In December 1887 the Inspector-General of Civil Hospitals was asked to forward with his opinion any suggestions for the regulation of the appointment of Hakíms by Local Bodies which the Commissioners of Cis-Indus Divisions might be disposed to offer. This Dr. Dallas has done in the letter read in the preamble.

2. In the course of the correspondence which has taken place on this subject, the question of prohibiting the employment of Hakíms has been raised by many officers and by the Government of India, but as in some districts native public opinion is in favour of the continued employment of this class of medical practitioners the Lieutenant-Governor does not wish to go so far as to prohibit it altogether.

3. Sir James Lyall, however, agrees with the opinion expressed in the letter of the Inspector-General of Civil Hospitals read above that the orders now passed must be clearly understood as intended to restrict the employment of Hakíms and not to encourage it. The policy of Government is that medical expenditure from public funds by way of pay or allowances must be primarily and ordinarily restricted to the remuneration of men who have received diplomas or certificates from Government Medical Schools and Colleges, and who profess only to practice the system of medicine taught therein; and the grant of pay or allowances to men calling themselves Hakíms or Baids must be allowed only in exceptional cases and as a cheap way of supplementing the

ordinary establishment of Assistant Surgeons or Hospital Assistants in large towns where that establishment is insufficient and cannot be increased, or in small towns or rural tracts where there is no such establishment and it is not at present possible to supply it. In order to make sure that these principles are observed, the Commissioner's sanction should in future be required before any Hakíms are granted pay or allowances by any Local Body. The Commissioner should also have power—

(1) to dismiss any Hakím whom he finds after enquiry to be useless or inefficient; and

(2) to reduce the pay of any Hakím if he considers his pay unnecessarily high.

4. The Lieutenant-Governor thinks that it should also be ruled that in future no men calling themselves Hakíms should be employed by Local Bodies unless—

(a) they have passed one of the Hakím examinations prescribed by the Lahore University; or

(b) have passed the final examination in the Lahore Medical College or Lahore Medical School, but have not accepted or obtained appointment as Assistant Surgeon or Hospital Assistant; or

(c) are hereditary Hakíms and have continuously practised the profession for not less than seven years and have acquired a good local reputation for skill and care of their patients.

The pay or allowances given to Hakíms must be regarded not as full pay for their services, but as a mere grant-in-aid to be given on condition of their promising to attend gratuitously paupers or indigent people in some tract or locality, and to assist therein in distribution of medicines in times of epidemics. They must look for their main income to fees from those able to pay them. The allowance, therefore, must always be small: it should not exceed Rs. 10 per mensem in the case of men who have not passed a University or Medical School or College Examination, and should generally be less, and in the case of passed men should not exceed Rs. 15 per mensem except with the special sanction of Government. Such allowance may, however, if the Local Board wishes, be supplemented by the grant of a supply of European medicines either free or on commission sale.

5. The Lieutenant-Governor would further rule that all Hakíms employed by Local Bodies must keep up registers of patients open to inspection by the Commissioner, Deputy Commissioner and Civil Surgeon, as well as by the Local Body.

6. The provisions of the District Boards Act and Punjab Municipal Act require that rules for the guidance of Boards and Committees in the matter of the entertainment of servants possessing professional skill shall be duly passed by Government in accordance with the usual procedure. A draft of the rules framed to carry out the policy embodied in the above remarks is annexed to this Resolution; and, as stated in the Notification publishing the draft, any further advice or criticism on these proposals which may be received within the next six weeks will be duly considered by the Lieutenant-Governor.

ORDER.—Ordered that this Resolution be communicated for information and guidance to the Inspector-General of Civil Hospitals and all Commissioners and Deputy Commissioners;

Also that it be published with the annexed Notification and draft of rules in the *Punjab Government Gazette.*

By order of the Hon'ble the Lieutenant-Governor,

C. L. TUPPER,

Secretary to Government, Punjab.

[Fifth publication.]

The 21st February 1889.

No. 93.—*Notification.*—In accordance with Section 60 of the Punjab District Boards Act, No. XX of 1883, and Section 159 of the Punjab Municipal Act, No. XIII of 1884, the Lieutenant-Governor hereby publishes for the information of persons interested the accompanying draft of proposed rules for the appointment of Hakíms and Baids by Boards and Committees.

2. This draft will be taken into consideration after six weeks from this date, and the Lieutenant-Governor before making the rules will receive and consider any objection or any suggestion which may be made by any person with respect to the draft before the date specified.

Draft of Rules for the appointment of Hakíms and Baids by Boards and Committees.

I.—After the 1st May 1889 no persons calling themselves Hakíms or Baids shall be employed by Boards or Committees unless they—

(1) have passed the Hakím-i-Háziq or Vaidya Examination of the Punjab University; or

(2) have passed the final examination in the Lahore Medical College or Lahore Medical School without accepting or obtaining appointment as Assistant Surgeons or Hospital Assistants; or

(3) belong by birth to a hereditary class of Hakíms or Baids, and have continuously practised the profession of such class for not less than seven years and have acquired a good local reputation for skill and care of their patients.

II.—The remuneration paid by Boards or Committees to Hakíms or Baids entertained by them under these rules shall not exceed in the case of men who have not passed a University or Medical School or College Examination Rs. 10 per mensem, and should ordinarily be less; or in the case of men who have passed such examination, Rs. 15 per mensem, except with the special sanction of Government.

III.—A Board or Committee may supplement the remuneration allowed to a Hakím or Baid under Rule II by the grant of a supply of European medicines either free or on commission sale.

IV.—Every Hakím or Baid employed by a Board or Committee must maintain a register of patients attended by him open to the inspection of the Commissioner, Deputy Commissioner and Civil Surgeon, and of the Board or Committee employing him.

V.—No Board or Committee shall grant any pay or allowances to any Hakím or Baid not heretofore employed by it except with the previous sanction of the Commissioner of the Division.

VI.—The Commissioner of the Division is hereby empowered—

(1) to dismiss any Hakím or Baid employed by a Board or Committee whom he finds after enquiry to be inefficient; and

(2) to reduce the pay of any Hakím or Baid so employed if he considers the same unnecessarily high.

VII.—These rules apply to the Boards and Committees named in the Schedule hereto annexed.

MEDICAL AND SANITARY.

[Sixth publication.]

Proceedings of the Hon'ble the Lieutenant-Governor in the Home (Medical and Sanitary) Department, No. 92, dated 21st February 1889.

READ—

Letter from the Inspector-General of Civil Hospitals, Punjab, No. 2417, dated 1st August 1888.

REMARKS.—The question whether Local Bodies should or should not be allowed to entertain Hakíms has been under the consideration of Government in various shapes for the last three or four years. In December 1887 the Inspector-General of Civil Hospitals was asked to forward with his opinion any suggestions for the regulation of the appointment of Hakíms by Local Bodies which the Commissioners of Cis-Indus Divisions might be disposed to offer. This Dr. Dallas has done in the letter read in the preamble.

2. In the course of the correspondence which has taken place on this subject, the question of prohibiting the employment of Hakíms has been raised by many officers and by the Government of India, but as in some districts native public opinion is in favour of the continued employment of this class of medical practitioners the Lieutenant-Governor does not wish to go so far as to prohibit it altogether.

3. Sir James Lyall, however, agrees with the opinion expressed in the letter of the Inspector-General of Civil Hospitals read above that the orders now passed must be clearly understood as intended to restrict the employment of Hakíms and not to encourage it. The policy of Government is that medical expenditure from public funds by way of pay or allowances must be primarily and ordinarily restricted to the remuneration of men who have received diplomas or certificates from Government Medical Schools and Colleges, and who profess only to practice the system of medicine taught therein; and the grant of pay or allowances to men calling themselves Hakíms or Baids must be allowed only in exceptional cases and as a cheap way of supplementing the ordinary establishment of Assistant Surgeons or Hospital Assistants in large towns where that establishment is insufficient and cannot be increased, or in small towns or rural tracts where there is no such establishment and it is not at present possible to supply it. In order to make sure that these principles

are observed, the Commissioner's sanction should in future be required before any Hakíms are granted pay or allowances by any Local Body. The Commissioner should also have power—

(1) to dismiss any Hakím whom he finds after enquiry to be useless or inefficient; and

(2) to reduce the pay of any Hakím if he considers his pay unnecessarily high.

4. The Lieutenant-Governor thinks that it should also be ruled that in future no men calling themselves Hakíms should be employed by Local Bodies unless—

(a) they have passed one of the Hakím examinations prescribed by the Lahore University; or

(b) have passed the final examination in the Lahore Medical College or Lahore Medical School, but have not accepted or obtained appointment as Assistant Surgeon or Hospital Assistant; or

(c) are hereditary Hakíms and have continuously practised the profession for not less than seven years and have acquired a good local reputation for skill and care of their patients.

The pay or allowances given to Hakíms must be regarded not as full pay for their services, but as a mere grant-in-aid to be given on condition of their promising to attend gratuitously paupers or indigent people in some tract or locality, and to assist therein in distribution of medicines in times of epidemics. They must look for their main income to fees from those able to pay them. The allowance, therefore, must always be small: it should not exceed Rs. 10 per mensem in the case of men who have not passed a University or Medical School or College Examination, and should generally be less, and in the case of passed men should not exceed Rs. 15 per mensem except with the special sanction of Government. Such allowance may, however, if the Local Board wishes, be supplemented by the grant of a supply of European medicines either free or on commission sale.

5. The Lieutenant-Governor would further rule that all Hakíms employed by Local Bodies must keep up registers of patients open to inspection by the Commissioner, Deputy Commissioner and Civil Surgeon, as well as by the Local Body.

6. The provisions of the District Boards Act and Punjab Municipal Act require that rules for the guidance of Boards and Committees in the matter of the entertainment of servants possessing professional skill shall be duly passed by Government in accordance with the usual procedure. A draft of the rules framed to carry out the policy embodied in the above remarks is annexed to this Resolution; and, as stated in the Notification publishing the draft, any further advice or criticism on these proposals which may be received within the next six weeks will be duly considered by the Lieutenant-Governor.

ORDER.—Ordered that this Resolution be communicated for information and guidance to the Inspector-General of Civil Hospitals and all Commissioners and Deputy Commissioners;

Also that it be published with the annexed Notification and draft of rules in the *Punjab Government Gazette.*

By order of the Hon'ble the Lieutenant-Governor,

C. L. TUPPER,

Secretary to Government, Punjab.

[Sixth publication.]

The 21st February 1889.

No. 93.—*Notification.*—In accordance with Section 60 of the Punjab District Boards Act, No. XX of 1883, and Section 159 of the Punjab Municipal Act, No. XIII of 1884, the Lieutenant-Governor hereby publishes for the information of persons interested the accompanying draft of proposed rules for the appointment of Hakíms and Baids by Boards and Committees.

2. This draft will be taken into consideration after six weeks from this date, and the Lieutenant-Governor before making the rules will receive and consider any objection or any suggestion which may be made by any person with respect to the draft before the date specified.

Draft of Rules for the appointment of Hakíms and Baids by Boards and Committees.

I.—After the 1st May 1889 no persons calling themselves Hakíms or Baids shall be employed by Boards or Committees unless they—

(1) have passed the Hakím-i-Háziq or Vaidya Examination of the Punjab University; or

(2) have passed the final examination in the Lahore Medical College or Lahore Medical School without accepting or obtaining appointment as Assistant Surgeons or Hospital Assistants; or

(3) belong by birth to a hereditary class of Hakíms or Baids, and have continuously practised the profession of such class for not less than seven years and have acquired a good local reputation for skill and care of their patients.

II.—The remuneration paid by Boards or Committees to Hakíms or Baids entertained by them under these rules shall not exceed in the case of men who have not passed a University or Medical School or College Examination Rs. 10 per mensem, and should ordinarily be less; or in the case of men who have passed such examination, Rs. 15 per mensem, except with the special sanction of Government.

III.—A Board or Committee may supplement the remuneration allowed to a Hakím or Baid under Rule II by the grant of a supply of European medicines either free or on commission sale.

IV.—Every Hakím or Baid employed by a Board or Committee must maintain a register of patients attended by him open to the inspection of the Commissioner, Deputy Commissioner and Civil Surgeon, and of the Board or Committee employing him.

V.—No Board or Committee shall grant any pay or allowances to any Hakím or Baid not heretofore employed by it except with the previous sanction of the Commissioner of the Division.

VI.—The Commissioner of the Division is hereby empowered—

(1) to dismiss any Hakím or Baid employed by a Board or Committee whom he finds after enquiry to be inefficient; and

(2) to reduce the pay of any Hakím or Baid so employed if he considers the same unnecessarily high.

VII.—These rules apply to the Boards and Committees named in the Schedule hereto annexed.

This document shall constitute, and is hereinafter referred to as, the cultivator's license.

Such opium after deduction of the

amount which the Local Government may reserve for import into the Native States under the political control of itself will be allotted annually by the Financial Commissioner to the various districts of the Punjab.

29. (i). Each Deputy Commissioner may issue permits, addressed to a Collector of the Ajmere-Merwára territories, as defined in Chapter I, Rule 1 (4), of the Ajmere-Merwára Opium Rules,* for the import of Málwa opium on payment of the reduced duty, to an amount not exceeding the allotment for the year for his district. When the allotment for the year has been exhausted no further permit for import of Málwa opium on payment of the reduced duty may be issued ; but permits may be granted for import on payment of the full duty which may from time to time be imposed by the Government of India.

* *Extract from Rule* 1 (4), *Ajmere-Merwára Opium Rules.*

"'Collector' means the chief officer in charge of the revenue administration of a district, and includes any person specially authorised by the Chief Commissioner, either by name or in virtue of his office, to discharge all or any of the functions of a Collector under these Rules."

(ii). If, after his allotment is exhausted, any Deputy Commissioner considers it advisable to obtain permission to grant further permits for the importation of Málwa opium on payment of the reduced duty, he may apply to the Financial Commissioner in the usual course, and a transfer from a district in which the allotment appears likely to be in excess of its requirements will, if possible, be arranged.

30. The original allotment for each district, and all transfers of allotments subsequently made, will be reported at the time by the Financial Commissioner to the Commissioner of Ajmere.

31. The Lieutenant-Governor will arrange with each of the Native States under the political control of the Punjab Government—

(*a*) what quantity of the Málwa opium which the Government of India may permit to be imported at the reduced duty shall be allotted to it ;

(*b*) the Deputy Commissioner to whom it should send the agents whom it may authorize to apply for permits ;

(*c*) the Deputy Commissioner to whom the opium so imported shall be consigned under Rule 34 ; and

(*d*) the route by which the consignment shall be transported to the Native State after being handed to the importer under Rule 37.

32. All permits granted for the import of Málwa opium shall show on the face of them whether the opium imported is to be subject to payment of the reduced duty or of the full duty ; and at the foot of the permit a note will be entered stating the total amount of Málwa opium, for the import of which, on payment of the reduced duty, permits have already been granted during the year by the Deputy Commissioner issuing the permit. The permits shall show in detail—

33. An importer who has obtained a permit from the Deputy Commissioner under Rule 29 or Rule 31 (*b*) may take it to the Collector to whom it is addressed, and may apply for a special order in writing under Rule 5 (2) of the Ajmere-Merwára Opium Rules authorizing him to buy opium either in Ajmere or Rájpútána. The opium so purchased shall be brought by the importer to the Ajmere scales, where after paying the prescribed duty he will obtain a pass for import of the opium to the Punjab in accordance with the aforesaid Ajmere-Merwára Opium Rules.

34. (i). When, in accordance with the said Ajmere-Merwára Rules the opium for import to the Punjab has been duly weighed, the Opium Agent, or officer duly authorised by him to sign the pass, will, on receiving the duty payable, grant an import pass to the Punjab, shewing—

Opium intended for import to the districts of Karnál and Rohtak shall be consigned to the Deputy Commissioner of Delhi.

35. The original import pass, together with the consignment covered by it, shall be delivered on the line of rail to the Deputy Commissioner to whom it is consigned, or to the officer in charge of the excise revenue of his district.

37. (i). The Deputy Commissioner will then deliver the opium to the importer to whom he had granted the permit authorizing the import. Before delivery the amount will be again compared with the amount entered in the import pass.

(ii). In the case of opium intended for Karnál or Rohtak the Deputy Commissioner of Delhi, to whom it will be consigned under Rule 34, and not the Deputy Commissioner who originally granted the permit under Rule 29, will deliver the opium to the importer. Before making over the opium to the importer the Deputy Commissioner of Delhi, or his assistant in charge of the

excise revenue of the district, will compare the weight of the opium received with the amount entered in the original import pass and in the duplicate pass as required by Rule 36. He will afterwards cause the packages to be carefully sealed with his own seal, and, in authorizing the importer to transport the opium imported to the Karnál or Rohtak District, as the case may be, will carry out, as far as it is applicable, the procedure in regard to the transport of opium from one district to another prescribed in Rules 19 to 24.

The Deputy Commissioner of Delhi or his assistant in charge of the excise revenue of the district shall send at once to the Deputy Commissioner of Karnál or Rohtak, as the case may be, a copy of the original import pass delivered to him under Rule 35.

MEDICAL AND SANITARY.

[Seventh publication.]

Proceedings of the Hon'ble the Lieutenant-Governor in the Home (Medical and Sanitary) Department, No. 92, dated 21st February 1889.

READ—

Letter from the Inspector-General of Civil Hospitals, Punjab, No. 2417, dated 1st August 1888.

REMARKS.—The question whether Local Bodies should or should not be allowed to entertain Hakíms has been under the consideration of Government in various shapes for the last three or four years. In December 1887 the Inspector-General of Civil Hospitals was asked to forward with his opinion any suggestions for the regulation of the appointment of Hakíms by Local Bodies which the Commissioners of Cis-Indus Divisions might be disposed to offer. This Dr. Dallas has done in the letter read in the preamble.

2. In the course of the correspondence which has taken place on this subject, the question of prohibiting the employment of Hakíms has been raised by many officers and by the Government of India, but as in some districts native public opinion is in favour of the continued employment of this class of medical practitioners the Lieutenant-Governor does not wish to go so far as to prohibit it altogether.

3. Sir James Lyall, however, agrees with the opinion expressed in the letter of the Inspector-General of Civil Hospitals read above that the orders now passed must be clearly understood as intended to restrict the employment of Hakíms and not to encourage it. The policy of Government is that medical expenditure from public funds by way of pay or allowances must be primarily and ordinarily restricted to the remuneration of men who have received diplomas or certificates from Government Medical Schools and Colleges, and who profess only to practice the system of medicine taught therein; and the grant of pay or allowances to men calling themselves Hakíms or Baids must be

allowed only in exceptional cases and as a cheap way of supplementing the ordinary establishment of Assistant Surgeons or Hospital Assistants in large towns where that establishment is insufficient and cannot be increased, or in small towns or rural tracts where there is no such establishment and it is not at present possible to supply it. In order to make sure that these principles are observed, the Commissioner's sanction should in future be required before any Hakíms are granted pay or allowances by any Local Body. The Commissioner should also have power—

(1) to dismiss any Hakím whom he finds after enquiry to be useless or inefficient; and

(2) to reduce the pay of any Hakím if he considers his pay unnecessarily high.

4. The Lieutenant-Governor thinks that it should also be ruled that in future no men calling themselves Hakíms should be employed by Local Bodies unless—

(a) they have passed one of the Hakím examinations prescribed by the Lahore University; or

(b) have passed the final examination in the Lahore Medical College or Lahore Medical School, but have not accepted or obtained appointment as Assistant Surgeon or Hospital Assistant; or

(c) are hereditary Hakíms and have continuously practised the profession for not less than seven years and have acquired a good local reputation for skill and care of their patients.

The pay or allowances given to Hakíms must be regarded not as full pay for their services, but as a mere grant-in-aid to be given on condition of their promising to attend gratuitously paupers or indigent people in some tract or locality, and to assist therein in distribution of medicines in times of epidemics. They must look for their main income to fees from those able to pay them. The allowance, therefore, must always be small: it should not exceed Rs. 10 per mensem in the case of men who have not passed a University or Medical School or College Examination, and should generally be less, and in the case of passed men should not exceed Rs. 15 per mensem except with the special sanction of Government. Such allowance may, however, if the Local Board wishes, be supplemented by the grant of a supply of European medicines either free or on commission sale.

5. The Lieutenant-Governor would further rule that all Hakíms employed by Local Bodies must keep up registers of patients open to inspection by the Commissioner, Deputy Commissioner and Civil Surgeon, as well as by the Local Body.

6. The provisions of the District Boards Act and Punjab Municipal Act require that rules for the guidance of Boards and Committees in the matter of the entertainment of servants possessing professional skill shall be duly passed by Government in accordance with the usual procedure. A draft of the rules framed to carry out the policy embodied in the above remarks is annexed to this Resolution; and, as stated in the Notification publishing the draft, any further advice or criticism on these proposals which may be received within the next six weeks will be duly considered by the Lieutenant-Governor.

ORDER.—Ordered that this Resolution be communicated for information and guidance to the Inspector-General of Civil Hospitals and all Commissioners and Deputy Commissioners;

Also that it be published with the annexed Notification and draft of rules in the *Punjab Government Gazette.*

By order of the Hon'ble the Lieutenant-Governor,

C. L. TUPPER,

Secretary to Government, Punjab.

[Seventh publication.]

The 21*st February* 1889.

No. 93.—*Notification.*—In accordance with Section 60 of the Punjab District Boards Act, No. XX of 1883, and Section 159 of the Punjab Municipal Act, No. XIII of 1884, the Lieutenant-Governor hereby publishes for the information of persons interested the accompanying draft of proposed rules for the appointment of Hakíms and Baids by Boards and Committees.

2. This draft will be taken into consideration after six weeks from this date, and the Lieutenant-Governor before making the rules will receive and consider any objection or any suggestion which may be made by any person with respect to the draft before the date specified.

Draft of Rules for the appointment of Hakíms and Baids by Boards and Committees.

I.—After the 1st May 1889 no persons calling themselves Hakíms or Baids shall be employed by Boards or Committees unless they—

(1) have passed the Hakím-i-Háziq or Vaidya Examination of the Punjab University; or

(2) have passed the final examination in the Lahore Medical College or Lahore Medical School without accepting or obtaining appointment as Assistant Surgeons or Hospital Assistants; or

(3) belong by birth to a hereditary class of Hakíms or Baids, and have continuously practised the profession of such class for not less than seven years and have acquired a good local reputation for skill and care of their patients.

II.—The remuneration paid by Boards or Committees to Hakíms or Baids entertained by them under these rules shall not exceed in the case of men who have not passed a University or Medical School or College Examination Rs. 10 per mensem, and should ordinarily be less; or in the case of men who have passed such examination, Rs. 15 per mensem, except with the special sanction of Government.

III.—A Board or Committee may supplement the remuneration allowed to a Hakím or Baid under Rule II by the grant of a supply of European medicines either free or on commission sale.

IV.—Every Hakím or Baid employed by a Board or Committee must maintain a register of patients attended by him open to the inspection of the Commissioner, Deputy Commissioner and Civil Surgeon, and of the Board or Committee employing him.

V.—No Board or Committee shall grant any pay or allowances to any Hakím or Baid not heretofore employed by it except with the previous sanction of the Commissioner of the Division.

VI.—The Commissioner of the Division is hereby empowered—

(1) to dismiss any Hakím or Baid employed by a Board or Committee whom he finds after enquiry to be inefficient; and

(2) to reduce the pay of any Hakím or Baid so employed if he considers the same unnecessarily high.

VII.—These rules apply to the Boards and Committees named in the Schedule hereto annexed.

RESOLUTION.

Calcutta, the 15th December 1887.

Read—

Letter from the Government of the Punjab, No. 2810, dated the 11th October 1886.
Letter to the Governments of Bengal, Madras and Bombay, No. 4392, dated the 6th December 1886.
Letter from the Government of Bombay, No. 1349, dated the 3rd March 1887.
Letter from the Government of Madras, No. 390, dated the 25th April 1887.
Letter from the Government of Bengal, No. 2105, dated the 13th May 1887.
Letter from the Government of Madras, No. 944, dated the 29th September 1887.

Resolution.—With reference to a practice followed in the Punjab of using impressed labels for Promissory Notes chargeable with a duty of more than one anna, the Financial

Commissioner of the Punjab referred, for the orders of the Local Government, the question whether Promissory Notes thus written were duly stamped within the meaning of Section 3, clause 10, of the Indian Stamp Act, 1879.

2. The Government Advocate, to whom the question was referred by the Government of the Punjab, gave it as his opinion that Promissory Notes made in British India and chargeable with a duty of more than one anna must be executed on impressed sheets and could not be executed on impressed labels, as defined in Rule 3 (*a*) of the Rules issued under Act I of 1879 under the Notification in this Department, No. 1288, dated the 3rd March 1882. He suggested at the same time that the matter should be referred to the Chief Court, and that, if the Court concurred in his opinion, the Government of India should be asked to include these Promissory Notes in No. 20 of Rule 8 for the future.

3. Both the Financial Commissioner and the Government of the Punjab agreed in the opinion of the Government Advocate and recommended an addition to Rule 8 as suggested by him. The question of giving retrospective effect to the proposed addition was also suggested in view to covering past irregularities.

4. Before deciding the question, the Government of India enquired what practice was followed in respect of such Promissory Notes in Bengal, Madras, and Bombay, and whether any difficulty or inconvenience was experienced in the observance of the law and rules on the subject. The reports received from the Local Governments show that impressed sheets are used for Promissory Notes in Madras and to a great extent in Bengal, while impressed labels are used in Bombay for Promissory Notes written in European languages. No inconvenience, however, appears to have been experienced in any of these Provinces in adhering to the requirements of the law.

5. It seems clear to the Government of India—

(*a*) that Promissory Notes drawn or made in British India and chargeable with a duty of more than one anna are not among the instruments that may be stamped with impressed labels;

(*b*) that the legal and regular method of paying the stamp duty is by the use of impressed sheets, or in the cases of 6, 10 and 12 annas, for which no impressed sheets exist, by the use of hundi stamps;

(*c*) that although the practice is in some places not in conformity with this statement of the law and rules, it is only through ignorance or oversight that such is the case;

(*d*) that where the practice is regular, no inconvenience has been experienced in respect of it; and

(*e*) that where it is irregular, no mere alteration of the rules can obviate any consequence of past irregularities.

6. Under these circumstances it appears to the Governor-General in Council that no change in the rules is necessary, and the various Local Governments and Administrations will be requested to see that the interpretation of the law and rules indicated in (*a*) and (*b*) of the foregoing paragraph is acted on in future.

ORDERED, that copy of the foregoing Resolution be forwarded to the various Local Governments and Administrations, with the remarks that hundi stamps should not be used for any documents except hundis, as provided in Rule 6A of this Department Notification, No. 1288, dated the 3rd March 1882, and Promissory Notes chargeable with a duty of annas 6, 10 or 12, as provided in this Department Notification, No. 2955, dated the 1st December 1882, and that the non-existence of impressed sheets of the values indicated in the Notification of 1st December 1882 led to the insertion of Rule 6A in the Stamp Rules of 1882.

Letter from Surgeon-Major W. A. C. Roe, Officiating Sanitary Commissioner, Punjab, No. 27—630, dated the 20th of March 1889, suggesting a further increase to the Vaccination establishment of the Kángra District.

OBSERVATIONS.—In a letter No. 8—261, dated 12th February 1886, Dr. Bellew, then Sanitary Commissioner of the Punjab, reported that in certain districts alterations in the strength of the Vaccination establishment had been made either at the suggestion of the Deputy Commissioner or District and Municipal Committee. He drew attention to paragraph 10 of Punjab Government Resolution No. 3261, dated 10th September 1881, ruling that the strength of this establishment would be determined from time to time under the orders of the Government, and he requested that orders might be issued pointing out that the control of this establishment is entirely in the hands of the Sanitary Commissioner, and that no alterations should be made in the sanctioned scale of the Vaccination staff without first procuring the sanction of the Government through the Sanitary Commissioner's Office. Subsequently, in his letters marginally noted, Dr. Bellew gave instances in which action had been taken by Local Bodies without reference to him.

No. 20—542, dated 16th March 1886.
No. 42—999, dated 7th May 1886.

2. The whole of this correspondence having been laid before Sir Charles Aitchison, then Lieutenant-Governor, attention was called to the provisions of Section 27 of Act XX of 1883 (The District Boards Act), which enable a District Board to employ and pay such officers and servants as may be necessary and proper for the efficient execution of its duties and of the duties of Local Boards acting under it. The orders passed at the time, *viz*, in June 1886, further pointed out that powers thus conferred are subject to certain restrictions. Thus the same section provides that if at any time, in the opinion of the Deputy Commissioner, the number of persons employed by a Board, or the remuneration assigned by the Board to these persons or to any of them, is excessive, or if any such person is unfit for his employment, the Board shall, on the requirement of the Deputy Commissioner, reduce the number or remuneration of these persons, or, as the case may be, dismiss the unfit person. The order given by the Deputy Commissioner under this section is appealable to the Commissioner of the Division. Under Section 37 (2) the Local Government may make rules "with respect to the priority to be given to the several duties of the Board;" and under Section 39 (5) the annual estimate framed by the Board is subject to the scrutiny and orders of the Deputy Commissioner and the Commissioner of the Division. Further, Section 50 of the Act confers large powers of control both upon the Local Government and upon the local officers; and under the rules published with Punjab Government Notification No. 528½, dated 26th February 1884, the dismissal of certain officers is made subject to the sanction of the Deputy Commissioner; while District Boards (Rule IV) are "bound to observe those general principles of which Government has approved in several Departments of the Administration." With reference to this rule, it would not

be competent to a Board to create a new grade of officers in any department of officers, or to increase or diminish the pay of officials in any such existing grade without the sanction of Government. Similar provision has been made in Sections 30, 68 (2) and 151 of Municipal Act, XIII of 1884, and in the rules published thereunder with Punjab Government Notification No. 371 S., dated 19th June 1885.

3. In the proceedings of June 1886 it was further observed that the result of this legislation had been to supersede the specific orders given in paragraph 10 of the Resolution of the 10th September 1881 fixing the strength of the Vaccination establishment. The intention of the Legislature, it was justly observed, was that the Government should exercise a general, not a particular, control; that it should interfere when efficiency suffers, not in every case of reduction of establishment. It was said that to a considerable extent Local Bodies had been required to accept responsibility for the efficiency of Vaccination establishments, and the functions of the supervising officers had undergone a corresponding change. At the same time it was realized that the time had not come to expect that the several Local Bodies would be able without assistance and without occasional interference to determine for themselves such matters as the strength of the establishment necessary to insure efficient vaccination in the areas under their control; and it would therefore be necessary for the Sanitary Commissioner to maintain a watchful eye over any proposals to reduce the establishment and employ the money for other purposes. It also seemed advisable that the existing Vaccination establishment should be carefully scheduled. The Sanitary Commissioner was accordingly requested to take the matter into consideration and after such scrutiny as he might consider necessary to submit to Government for general approval and publication thereafter statements showing the strength of the establishment which District and Municipal Bodies would be expected to keep up with a view to efficient operations. It was noted that this had been done in regard to Dispensary establishments in the rules published with Punjab Government Notification No. 323, dated 11th May 1886, and it was added that so long as it was understood that the scale was not absolutely prescribed, and that deviations from it would be dealt with on general grounds and in accordance with the general powers of control conferred by the Act, the proposed course seemed unobjectionable.

4. Accordingly, after communication with the several Deputy Commissioners of districts, the Sanitary Commissioner has now submitted scales of establishments to be maintained by District Boards and Municipal Committees respectively. With regard to the scale for Municipalities Dr. Stephen explains that it has been found impossible to fix the establishment for each Municipality because some of the Municipalities are so small and so poor that they cannot afford to maintain separate establishments. He has therefore, with the concurrence of Deputy Commissioners, submitted two scales of establishment, one showing the Vaccination establishment proposed for each District Board, the other that proposed to be fixed for all the Municipalities in the Punjab, combining them and treating them for the purposes of the establishment to be fixed as though there were one Municipality in each district only.

5. The Lieutenant-Governor is pleased to accept the proposals of the Sanitary Commissioner as embodied in the annexed schedules, A. and B. His Honor further approves of the explanation of the law and rules applicable to the subject which has been recited above from the orders of June 1886. Local Bodies will therefore be expected to maintain Vaccination establishments in accordance with the schedules; and His Honor is pleased to rule that if in any case a District Board or Municipal Committee proposes to depart from the scale as now prescribed, the matter must be laid before the officer who would have power under this paragraph to sanction the alteration. It is further ruled by His Honor that when any proposal for such departure is made, the Sanitary Commissioner shall be informed of it through the prescribed channels. Should he entertain any objection it will be left with him to refer the matter to the Commissioner of the Division concerned, who will thus be placed in the best position to deal with the proposals of the Local Body in accordance with the intention

of the Legislature and with due regard to the requirements of the district administration. A reference to the Government will not be necessary unless the Commissioner and Sanitary Commissioner are unable to agree. The prescribed Municipal or District scales in any district must not be reduced except with the approval of both of these authorities ; but, subject to simultaneous report for the information of the same authorities or one of them, the prescribed scale may, if necessary, be increased with the sanction of the Deputy Commissioner if he is not President or Chairman of any of the Local Bodies concerned and of the Commissioner in any other case.

6. The case of the Vaccination establishment in the Kángra District calls for special comment. With his letter No. 8—272, dated the 12th February 1887, Surgeon-Major Stephen suggested a staff of—

1 Supervisor, 2nd Grade }
3 Vaccinators, 3rd Class } to be maintained by the District Board.

1 Vaccinator, 2nd Class }
1 Ditto, 3rd Class } to be maintained by Municipalities.

Subsequently Dr. Stephen in his letter No. $\frac{15}{459}$, dated the 21st February 1888, reported that in consequence of small-pox having broken out in a part of the Kulu Sub-Division of the Kángra District he had authorised the entertainment of a 3rd Class Vaccinator. A more recent letter from Surgeon-Major W. A. C. Roe, Officiating Sanitary Commissioner, No. $\frac{27}{360}$, dated the 20th of March 1889, reports that as small-pox was raging in the Kángra District in the summer of the year 1888, and the disease was being propagated by the practice of inoculation, the District Board engaged the services of Pandit Bál Kishen, late Deputy Superintendent of Vaccination in the Punjab, on a salary of Rs. 150 per mensem up to the 31st of March 1889 to assist the Civil Surgeon in the supervision of vaccination operations, as it was thought the appointment of a man of good standing and high caste would do much to counteract the opposition of the people to the practice of vaccination. The entertainment of the Pandit has proved a success, opposition to vaccination in said to have ceased, vaccination operations have increased, and the District Board proposes to continue the Pandit in its service up to the 31st of March 1890 on a salary of Rs. 100 per mensem. It is also proposed to increase the staff of District Vaccinators by four men of the 3rd Class on Rs. 10 per mensem each, abolishing as a temporary measure the Native Supervisor on Rs. 30 per mensem. The Lieutenant-Governor observes that the Sanitary Commissioner and the Commissioner of the Jullundur Division support these proposals, and he is therefore pleased to sanction them. The appointment of Pandit Bál Kishen being quite a special one, it is not shown in the annexed schedules. The five additional Vaccinators of the 3rd Class are entered in Schedule A. of establishments to be maintained by District Boards. It is, however, left with the Commissioner of the Jullundur Division to apportion the additional charge of Rs. 50 per mensem as he may think fit and the Local Bodies may agree. The appointment of a 2nd Class Native Supervisor is retained in Schedule A. as it may be revived later on.

ORDER.—Ordered that the foregoing Resolution be published in the *Punjab Gazette*, and a copy be supplied to the Sanitary Commissioner of the Punjab with reference to the correspondence ending with the letter from Surgeon-Major Roe, No. $\frac{27}{630}$, dated the 20th of March 1889 ; and to the Commissioner, Jullundur, for information and guidance, and for communication to all District Boards and Municipal Committees in the Jullundur Division.

Ordered also that a copy (paragraph 6 excepted) be forwarded to the Commissioners of Delhi, Lahore, Ráwalpindi, Pesháwar and the Deraját for information and guidance and communication to all the District Boards and Municipal Committees in their Divisions.

By order of the Hon'ble the Lieutenant-Governor,

C. L. TUPPER,
Secretary to Government, Punjab.

OFFICIAL PROGRAMME.

IT is intended to celebrate the Fiftieth Anniversary of the Foundation of the Colony of New Zealand by holding in the City of Dunedin an Exhibition of arts, industries, resources, and manners of New Zealand, Australia, and the other Countries and Colonies in the Southern Pacific.

The principal objects of this Exhibition are to pr[illegible]ally illustrate the development of the resources of New Zealand during the first h[illegible] century of her existence in comparison with the progress made by other [illegible] British and Foreign; to stimulate industry and promote Inter[illegible]; to strengthen the natural ties which connect all the [illegible] South Pacific Ocean, and to call attention to their position and potentialities.

The recent improvement in the commercial condition of New Zealand, and the prospect of prosperity immediately before her, offers special opportunities for the development of industry and the extension of Intercolonial commerce; whilst many considerations point to the desirability of bringing the importance of the South Sea Islands into notice, and cultivating a closer acquaintance with their peoples.

The Exhibition is held by and at the risk of a number of New Zealand colonists, who have subscribed a Guarantee Fund for the purpose, after the model of those upon which the Great Exhibition of 1851, the London International Exhibition of 1862, and the Adelaide Jubilee Exhibition of 1887 were carried out.

The Government of New Zealand have recognised this Exhibition as the Official Celebration of the Jubilee of the Colony, and issued invitations to the Governments of Australia and the other Colonies and Islands in the Southern Pacific to be officially represented thereat. They have further undertaken to assist the Exhibition by erecting the main building, which will contain the picture galleries, and themselves exhibiting collections illustrating the fauna, flora, geology, and mineralogy of New Zealand, as well as objects of historical interest. The Government will also with the assistance of the native chiefs organise a representation of Maori life and customs.

The Commissioners invite exhibits of all kinds from all Colonies, British and Foreign, wheresoever situated, as well as from Islands under British rule in the South Pacific. They are also desirous of obtaining Works of Art, Educational, Scientific and Machinery Exhibits from other countries; but ordinary Industrial Exhibits from Europe and America can only be admitted under special conditions. Inducements will be offered for the exhibition of processes of manufacture.

With the consent and support of the other chief cities of New Zealand, the Exhibition will be held in Dunedin, which is the centre of the railway system of the southern and most populous island of the Colony. A suitable site has been obtained in the heart of the town, close to the railway station and intercolonial wharves. A line of railway will deliver exhibits into the grounds.

The exhibition will be open to the public on Tuesday, 26th November 1889, and close about the middle of April 1890. It will be open in the evening as well as the day time.

The Government will issue customs regulations for the free admission of Intercolonial and Foreign Exhibits, similar to those in force at Melbourne and other Intercolonial Exhibitions, and similar railway privileges will be allowed for exhibits. The reproduction of exhibits will be prohibited by law.

CONDITIONS AND REGULATIONS.

1. Governments intending to take part in this Exhibition are requested to intimate the same as soon as possible. Applications for space for exhibits from Colonies officially represented must be made through the Commissioners of the Colonies to which the applicant belongs. Applications from countries and colonies not officially represented should be addressed directly to the Secretary at Dunedin.

2. Applications for space, with full particulars, are invited as early as possible, and in the allotment of space precedence will be given, as far as possible, to priority of application. No application will be received later than the 1st of July 1889. Forms of application and all information can be obtained from the Secretary.

3. The ordinary charge for space will be £1. 1s. for the first ten square feet or any less space, and a shilling for every additional square foot. Sculpture and paintings approved by the Fine Arts Committee will be admitted free, as well as educational and scientific exhibits shown by Government departments, and exhibits in Classes 34 and 35. Machinery and bulky exhibits will be shown [illegible] special annexes, in which space will be charged for at the reduced rate of £1. 1s. for the first 20 [illegible] six pence for every additional foot. Wall space will be charged at the same rate as machinery. [illegible] Special arrang[illegible] must be accompanied by payment of the full amount of the space required. [illegible] be made for the exhibition of articles in the grounds.

4. The Exhibition will be ready for the reception of exhibits on October 1, 1889, and space not occupied by November 1, 1889, will revert to the Commissioners for reassignment. The Executive Commissioner shall at any time have power to reserve or reduce space which, in his opinion, is not fully occupied or misused.

5. The Executive Commissioner may issue at his discretion weekly licenses for the sale of articles manufactured in the Exhibition, but no other exhibit will be allowed to be taken out of the buildings until the close of the Exhibition; and any exhibitor selling goods for immediate delivery renders himself liable to the forfeiture of his space and all rights as an exhibitor.

6. The Exhibition building will be constituted a bonded store, but exhibits sold will be subject to duty.

7. The introduction of dangerous substances is strictly prohibited.

8. Packages intended for the Exhibition must be painted or labelled with the following device as a distinctive mark N. Z. E. together with the name of the exhibitor and country or colony in which court the exhibit will be shown.

9. Customs entries, transportation, receiving and arranging articles for exhibition must be undertaken by the exhibitor at his own expense, but no charge will be made for the carriage of goods intended for exhibition on the railway lines. New Zealand and Island exhibits will be carried free on the Union S.S. Company's boats, and Australian exhibits the double journey at single freight.

10. The protection of invention capable of being patented and of designs is secured by the patent law of New Zealand. No exhibit may be drawn, copied or reproduced in any manner whatsoever without the joint consent of the exhibitor and the Executive Commissioner. The Commissioners, however, reserve to themselves the right of authorising the production of general views.

11. If exhibits are not intended for competition, notice must be given in the application for space.

12. An official catalogue will be published in English by the Commissioners, by whom the sale of catalogues is reserved. Anything beyond the ordinary description of the exhibit, together with the name of the exhibitor, must be paid for as an advertisement.

13. The representatives of countries and colonies will be allowed to group their exhibits as they may think fit in that portion of the Exhibition buildings allotted to them, subject always to the approval of the Executive Commissioner.

14. Motive power will be supplied to exhibits of processes of manufacture free of charge on application to the Executive Commissioner; but the right is reserved of reducing the amount asked for, or to make a charge for certain portions of the motive power supplied at discretion. The Commissioners desire to encourage the display of machinery in motion, and of all descriptions of manufactures in progress. Requests for motive power must be made to the Secretary prior to 1st July 1889.

15. All shafting, pulleys, belting, machines, &c., for the transmission of power from the main shafting, must be provided by and at the cost of the exhibitor.

16. Judges will be appointed by the Commissioners, acting mainly upon the recommendation of the exhibitors themselves. Certificates of first, second, and third order of merit will be awarded.

17. The removal of exhibits from the Exhibition buildings and grounds must be completed within one month from the close of the Exhibition. Goods remaining after that period will be removed by order of the Executive Commissioner, at the risk of exhibitors and sold by auction or otherwise disposed of at his direction, and the net proceeds handed to the exhibitors or their duly appointed agents.

18. Every person who becomes an exhibitor thereby acknowledges and undertakes to observe the rules and regulations established from time to time for the government of the Exhibition.

19. The Commissioners reserve the right to alter, explain, or add to these regulations at any time, whatever may be deemed necessary.

20. Precaution will be taken to preserve exhibits from injury and to guard the buildings, but no responsibility will be taken for damage or loss from whatever cause. Exhibitors will make their own arrangements for effecting insurances.

Form of applications for space and all further information can be obtained from

D. HARRIS HASTINGS, *Secretary.*

Simla, the 17th June 1889.

SIR,

I AM directed to acknowledge the receipt of your letter No. St. $\frac{1-R}{1}$ 4, dated 29th May 1889, enclosing one from the Board of Revenue, Lower Provinces, No. 385-B., dated 16th May 1889, reporting that the Collector of Stamp Revenue in Calcutta has, under orders from

the Board issued in August 1888, granted refunds of the value of stamps affixed to bills of exchange when the refund has been applied for in the circumstances stated in the enclosures of the letter from this office, No. 940, dated the 21st February 1889.

2. I am to point out that this decision is opposed to the recent ruling of the Calcutta High Court on the subject, copy of which was communicated to the Government of Bengal with the letter of 21st February, and I am to request that the Board may be invited to revoke the orders of August 1888, and to direct the Collector of Stamp Revenue to refuse refunds in such cases as form ed the subject of the reference to the High Court.

I have the honor to be,

SIR,

Your most obedient Servant,

J. E. O'CONOR,

Assistant Secretary to the Government of India.

Letter from the Chief Commissioner, Burma, No. 97—3-S.S., dated 8th February 1889, and enclosures.

By order,

J. E. O'CONOR,

Assistant Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF FINANCE AND COMMERCE.

Enclosures to Letter No. 2996 of 1889.

No. 97—3-S.S., dated 8th February 1889.

From—D. H. R. TWOMEY, Esq., C.S., Officiating Under-Secretary to the Chief Commissioner of Burma,

To—The Secretary to the Government of India, Department of Finance and Commerce.

THE High Court of Calcutta having recently given a ruling on a reference to them under Section 46 of the Indian Stamp Act (Act I of 1879) by the Financial Commissioner of Burma, which the Chief Commissioner thinks might considerably affect the stamp revenue, I am directed to submit a copy of the reference made by the Financial Commissioner and the High Court's ruling for the consideration of the Government of India in case the matter may be deemed of sufficient importance to warrant the decision of the High Court being brought to the notice of other Local Governments with a view to ascertaining whether uniformity of practice prevails in dealing with the question on which the reference has been made.

2. The Chief Commissioner is induced to make this suggestion because he has reason to believe that some local firms now get their bill of exchange forms stamped in Calcutta, as they say that there they have no difficulty in getting refunds and renewals in respect of labels on bills of exchange similar to those attached to the Arakan Company's application.

3. It has now been definitely decided that drafts which have been used as cover and sent to home firms or home partners or directors who are payees have been made use of within the meaning of the Act, and it is in the interests of both the Imperial and Provincial revenues that the decision should be acted on, and that refunds and renewals should not be granted for labels affixed to such instruments.

4. It has been stated that the Collector of Calcutta is in the habit of renewing such labels, and, whether this be true or not in his case, the assertion is strengthened by the fact that the firms who have been in the habit of using bills of exchange as cover, and afterwards of getting refunds or renewals for the stamps, have not been sending forms to the Superintendent of Stamps at Rangoon as frequently as formerly.

5. From enquiries that have been made from persons conversant with mercantile transactions in London and India, it has, moreover, been ascertained that bills are extensively used as covers, and afterwards presented to Collectors for refunds of the value of the stamps.

6. It has been said that the refusal to grant refunds will only make the Indian merchants use on-demand drafts. This contention, however, is not established, as, until a cargo reaches its destination, there would be nothing to meet the on-demand draft, and so the bills must be drawn at from 4 to 6 months' sight.

7. As the Chief Commissioner is strongly of opinion that uniformity of practice will result in a considerable increase of the stamp revenue, he has thought it desirable to lay the matter before the Government of India for any action which it may be thought desirable to take.

No. 346—3-S.S., dated 31st July 1888.

From—F. W. R. FRYER, Esquire, Financial Commissioner, Burma,

To—The Registrar of the High Court of Judicature at Fort William in Bengal.

I HAVE the honor to refer the following case for the opinion of the Hon'ble Judges of the High Court of Judicature at Fort William under Section 46 of the Indian Stamp Act I of 1879. The case has come before me on appeal from the order of the Collector of Rangoon Town, who refused to make a refund under Section 51 of the Act to Messrs. Strang, Steel & Co. for impressed labels said by them to have been spoiled or rendered useless.

2. The facts of the case are as follows.

The bills of exchange to which the impressed labels were affixed were drawn by Messrs. Strang, Steel & Co. on a Liverpool firm in favour of themselves as payees, endorsed to their London firm, Messrs. Steel Brothers & Co. and returned by the latter firm, no further use having been made of them. Messrs. Strang, Steel & Co. of Rangoon and Messrs. Steel Brothers & Co. of London are, it is contended, one and the same firm. The bills have never been out of the hands of the firm, and have never been negociated. It may be admitted, I think, that Messrs. Strang, Steel & Co. of Rangoon and Messrs. Steel Brothers & Co. of London are one and the same firm with the same partners. In proof of this, the deed of partnership is produced. The questions to be decided are—

(1) Have the bills signed by or on behalf of the drawers or intended drawer been delivered out of his hands to the payee or intended payee? This has certainly been done. But does it affect the question that the payer and payee are one and the same firm?

(2) Have the bills been deposited with any person on a security for the payment of money, or been in any way negociated, issued, or put in circulation, or made use of in any other manner?

The bills seem to have been deposited with Messrs. Steel Brothers & Co. as security for the payment of money due on a cargo of rice, and in my opinion it is not possible to say that they have not been made use of in any way. A similar claim has been made by the Arakan Company, Limited, and the circumstances in both cases are very similar.

In the latter case the Manager of the Company has made a deposition on oath. The object with which these bills are drawn is thus described :—

As a rule, the Directors get a Bank to wire us money for a cargo, and then to cover the advance we send home bills payable four months after sight.

I suppose this means that the bills are sent to cover an advance for the purchase of rice; and when the rice gets home, the advance is met, and so the bills are not cashed. Under these circumstances, can it be said that the bills have not "been made use of in any other manner?" It seems to me that they have served the one for which they were intended, and that no refund should be made.

In the case of the Arakan Company, Limited, it is claimed that the bills were not really used as cover, but were drawn by mistake. This contention would affect the particular bills so drawn by mistake. In Messrs. Strang, Steel & Co.'s case there is no allegation of mistake, and the issue which I have to decide is whether refunds should be made when bills are drawn, as in the latter case, for a definite purpose, and not under any mistake. The Arakan Company has made no application for a review of the Collector's order.

I asked the opinion of the Government Advocate, Burma, upon the points raised, and he advises a reference to the High Court of Judicature at Fort William. I append a copy of the Government Advocate's opinion.

3. My own opinion is that Messrs. Strang, Steel & Co. are not entitled to a refund, because the bill of exchange has been delivered out of the possession of the drawer to the payee or intended payee, and the identity of the two firms, Messrs. Strang, Steel & Co. of Rangoon and Messrs. Steel Brothers & Co. of London, does not avoid the fact of the delivery, and also because it cannot be said that the bill of exchange has not been made use of in any other manner.

4. The point referred is in my opinion of sufficient importance to the commercial community of Burma to justify this reference.

5. I submit the file of the Court of the Commissioner of Pegu and also the files of the Collector's Court, Rangoon Town, in this case and in the case of the Arakan Company. I also send the original appeal of Messrs. Strang, Steel & Co. to me with the bills of exchange filed by them.

Dated 30th July 1888.

Opinion by—J. LOWIS, Esquire, Officiating Government Advocate, Burma.

ALTHOUGH not altogether without doubt, I am of opinion that the petitioner has not made out his case.

The main question, as it seems to me, is whether Messrs. Strang, Steel & Co. of Rangoon can claim to be identical with Messrs. Steel Brothers & Co. of London. If they can, then it would seem that the document has never passed out of their possession or been negociated, and I am not sure that it could properly be held to have been made use of. I have not seen the partnership deed referred to, but, whatever its terms, I do not think that for the purposes of this case, the two firms can claim to be one. Identity of the persons composing them does not make two firms one (see *in re* the Kon-do-li Tea Company, Limited, I. L. R. XIII, Cal. 43). In the document itself the claimants treat Messrs. Steel Brothers & Co. as a different firm from themselves; and if they were to all intents and purposes one and the same, there would be no object to be gained by one firm endorsing the instrument to the other, for it would aswer all purposes if Messrs. Steel Brothers of London were themselves to draw the bill. This doubtless would not suit the parties. There are objects to be gained by the present system. If the claimants wish to have the advantages of being treated as a different firm from Steel Brothers & Co., they must submit to disadvantages.

This is my opinion, but there is much to be said on the other side, and the question being one of importance might perhaps be referred to the High Court under Section 46 of the Act.

Reference under Section 46 of the Indian Stamp Act, I of 1879, made by the Financial Commissioner of Burma in his letter No. 346—3-S.S., dated 31st July 1888, in the matter of petition by Messrs. Strang, Steel & Co. for refund, under Section 51 of the Act, for impressed labels said to have been spoiled or rendered useless.

The Advocate-General for the Government.

No. 1489.

We agree with the view expressed by the Collector of Rangoon Town District in this matter.

No. 940, dated 21st February 1889.

From—L. P. SHIRRES, Esquire, Officiating Under-Secretary to the Government of India, Department of Finance and Commerce,

To—The Secretary to the Government of Bengal, Financial Department.

I AM directed to forward a copy of a letter from the Chief Commissioner, Burma, No. 97—3-S.S., dated the 8th February 1889, and of its enclosures, and to request that, with the permission of His Honor the Lieutenant-Governor, the Government of India may be informed what the practice is in Calcutta in regard to the grant of refunds for impressed labels affixed to bills of exchange of the nature of those referred to in the correspondence.

No. St. $\frac{1\text{-R.}}{1}$-4, dated 29th May 1889.

From—C. CUTHBERTSON, Esquire, C.S., Officiating Secretary to the Government of Bengal, Financial Department,

To—The Secretary to the Government of India, Department of Finance and Commerce.

I AM directed to acknowledge the receipt of your letter No. 940, dated the 21st February 1889, in which you request that the Government of India may be informed of the practice in Calcutta regarding the grant of refunds for impressed labels affixed to bills of exchange of the nature of those referred to in the correspondence which forms an enclosure to your letter.

2. In reply, I am desired to submit the accompanying copy of a letter from the Board of Revenue, No. 385-B., dated 16th May 1889, which gives the information required by the Government of India.

No. 385-B., dated 16th May 1889.

From—K. G. GUPTA, Esquire, Officiating Secretary to the Board of Revenue, Lower Provinces,

To—The Secretary to the Government of Bengal, Financial Department.

I AM directed to acknowledge the receipt of the orders of the Government, No. St. $\frac{1\text{-R}}{1}$-2, dated 1st March 1889, and its enclosure, calling for a report as to the practice obtaining in Calcutta in regard to the grant of refunds for impressed labels affixed to bills of exchange of the nature of those referred to in the letter from the Chief Commissioner of Burma to the address of the Government of India, and in reply to state as follows.

2. The Collector of Stamp Revenue, Calcutta, writes that the practice in his office is to allow refund and renewal of the value of the stamps affixed to bills of exchange in question. This practice, which is said to be of recent growth, as it dates from August 1888, is based on a decision passed by the Board in a representation made to them by Messrs. Schroder Smidt & Co., objecting to the order of the Collector of Calcutta refusing to grant renewal of the stamps affixed to certain bills of exchange which had been presented to that officer for the purpose.

3. The Collector of Calcutta further reports that applications for such refunds have been few and far between. The first application of the kind was received in November last, the value of the stamps renewed being Rs. 177; and the second was received on the 5th April last, and is under consideration.

4. The enclosures of the Government Order under reference are herewith returned.

OFFICIAL PROGRAMME.

IT is intended to celebrate the Fiftieth Anniversary of the Foundation of the Colony of New Zealand by holding in the City of Dunedin an Exhibition of arts, industries, resources, and manners of New Zealand, Australia, and the other Countries and Colonies in the Southern Pacific.

The principal objects of this Exhibition are to practically illustrate the development of the resources of New Zealand during the first half century of her existence in comparison with the progress made by other Colonies, British and Foreign; to stimulate industry and promote Intercolonial commerce; to strengthen the natural ties which connect all the countries in the South Pacific Ocean, and to call attention to their position and potentialities.

The recent improvement in the commercial condition of New Zealand, and the prospect of prosperity immediately before her, offers special opportunities for the development of industry and the extension of Intercolonial commerce; whilst many considerations point to the desirability of bringing the importance of the South Sea Islands into notice, and cultivating a closer acquaintance with their peoples.

The Exhibition is held by and at the risk of a number of New Zealand colonists, who have subscribed a Guarantee Fund for the purpose, after the model of those upon which the Great Exhibition of 1851, the London International Exhibition of 1862, and the Adelaide Jubilee Exhibition of 1887 were carried out.

The Government of New Zealand have recognised this Exhibition as the Official Celebration of the Jubilee of the Colony, and issued invitations to the Governments of Australia and the other Colonies and Islands in the Southern Pacific to be officially represented thereat. They have further undertaken to assist the Exhibition by erecting the main building, which will contain the picture galleries, and themselves exhibiting collections illustrating the fauna, flora, geology, and mineralogy of New Zealand, as well as objects of historical interest. The Government will also with the assistance of the native chiefs organise a representation of Maori life and customs.

The Commissioners invite exhibits of all kinds from all Colonies, British and Foreign, wheresoever situated, as well as from Islands under British rule in the South Pacific. They are also desirous of obtaining Works of Art, Educational, Scientific and Machinery Exhibits from other countries; but ordinary Industrial Exhibits from Europe and America can only be admitted under special conditions. Inducements will be offered for the exhibition of processes of manufacture.

With the consent and support of the other chief cities of New Zealand, the Exhibition will be held in Dunedin, which is the centre of the railway system of the southern and most populous island of the Colony. A suitable site has been obtained in the heart of the town, close to the railway station and intercolonial wharves. A line of railway will deliver exhibits into the grounds.

The exhibition will be open to the public on Tuesday, 26th November 1889, and close about the middle of April 1890. It will be open in the evening as well as the day time.

The Government will issue customs regulations for the free admission of Intercolonial and Foreign Exhibits, similar to those in force at Melbourne and other Intercolonial Exhibitions, and similar railway privileges will be allowed for exhibits. The reproduction of exhibits will be prohibited by law.

CONDITIONS AND REGULATIONS.

1. Governments intending to take part in this Exhibition are requested to intimate the same as soon as possible. Applications for space for exhibits from Colonies officially represented must be made through the Commissioners of the Colonies to which the applicant belongs. Applications from countries and colonies not officially represented should be addressed directly to the Secretary at Dunedin.

2. Applications for space, with full particulars, are invited as early as possible, and in the allotment of space precedence will be given, as far as possible, to priority of application. No application will be received later than the 1st of July 1889. Forms of application and all information can be obtained from the Secretary.

3. The ordinary charge for space will be £1. 1s. for the first ten square feet or any less space, and a shilling for every additional square foot. Sculpture and paintings approved by the Fine Arts Committee will be admitted free, as well as educational and scientific exhibits shown by Government departments, and exhibits in Classes 34 and 35. Machinery and bulky exhibits will be shown in special annexes, in which space will be charged for at the reduced rate of £1. 1s. for the first 20 feet, and six pence for every additional foot. Wall space will be charged at the same rate as machinery. All applications must be accompanied by payment of the full amount of the space required. Special arrangements can be made for the exhibition of articles in the grounds.

4. The Exhibition will be ready for the reception of exhibits on October 1, 1889, and space not occupied by November 1, 1889, will revert to the Commissioners for reassignment. The Executive Commissioner shall at any time have power to reserve or reduce space which, in his opinion, is not fully occupied or misused.

5. The Executive Commissioner may issue at his discretion weekly licenses for the sale of articles manufactured in the Exhibition, but no other exhibit will be allowed to be taken out of the buildings until the close of the Exhibition; and any exhibitor selling goods for immediate delivery renders himself liable to the forfeiture of his space and all rights as an exhibitor.

6. The Exhibition building will be constituted a bonded store, but exhibits sold will be subject to duty.

7. The introduction of dangerous substances is strictly prohibited.

8. Packages intended for the Exhibition must be painted or labelled with the following device as a distinctive mark N. Z. E. together with the name of the exhibitor and country or colony in which court the exhibit will be shown.

9. Customs entries, transportation, receiving and arranging articles for exhibition must be undertaken by the exhibitor at his own expense, but no charge will be made for the carriage of goods intended for exhibition on the railway lines. New Zealand and Island exhibits will be carried free on the Union S.S. Company's boats, and Australian exhibits the double journey at single freight.

10. The protection of invention capable of being patented and of designs is secured by the patent law of New Zealand. No exhibit may be drawn, copied or reproduced in any manner whatsoever without the joint consent of the exhibitor and the Executive Commissioner. The Commissioners, however, reserve to themselves the right of authorising the production of general views.

11. If exhibits are not intended for competition, notice must be given in the application for space.

12. An official catalogue will be published in English by the Commissioners, by whom the sale of catalogues is reserved. Anything beyond the ordinary description of the exhibit, together with the name of the exhibitor, must be paid for as an advertisement.

13. The representatives of countries and colonies will be allowed to group their exhibits as they may think fit in that portion of the Exhibition buildings allotted to them, subject always to the approval of the Executive Commissioner.

14. Motive power will be supplied to exhibits of processes of manufacture free of charge on application to the Executive Commissioner; but the right is reserved of reducing the amount asked for, or to make a charge for certain portions of the motive power supplied at discretion. The Commissioners desire to encourage the display of machinery in motion, and of all descriptions of manufactures in progress. Requests for motive power must be made to the Secretary prior to 1st July 1889.

15. All shafting, pulleys, belting, machines, &c., for the transmission of power from the main shafting, must be provided by and at the cost of the exhibitor.

16. Judges will be appointed by the Commissioners, acting mainly upon the recommendation of the exhibitors themselves. Certificates of first, second, and third order of merit will be awarded.

17. The removal of exhibits from the Exhibition buildings and grounds must be completed within one month from the close of the Exhibition. Goods remaining after that period will be removed by order of the Executive Commissioner, at the risk of exhibitors and sold by auction or otherwise disposed of at his direction, and the net proceeds handed to the exhibitors or their duly appointed agents.

18. Every person who becomes an exhibitor thereby acknowledges and undertakes to observe the rules and regulations established from time to time for the government of the Exhibition.

19. The Commissioners reserve the right to alter, explain, or add to these regulations at any time whatever may be deemed necessary.

20. Precaution will be taken to preserve exhibits from injury and to guard the buildings, but no responsibility will be taken for damage or loss from whatever cause. Exhibitors will make their own arrangements for effecting insurances.

Form of applications for space and all further information can be obtained from

D. HARRIS HASTINGS, *Secretary.*

OFFICIAL PROGRAMME.

IT is intended to celebrate the Fiftieth Anniversary of the Foundation of the Colony of New Zealand by holding in the City of Dunedin an Exhibition of arts, industries, resources, and manners of New Zealand, Australia, and the other Countries and Colonies in the Southern Pacific.

The principal objects of this Exhibition are to practically illustrate the development of the resources of New Zealand during the first half century of her existence in comparison with the progress made by other Colonies, British and Foreign; to stimulate industry and promote Intercolonial commerce; to strengthen the natural ties which connect all the countries in the South Pacific Ocean, and to call attention to their position and potentialities.

The recent improvement in the commercial condition of New Zealand, and the prospect of prosperity immediately before her, offers special opportunities for the development of industry and the extension of Intercolonial commerce; whilst many considerations point to the desirability of bringing the importance of the South Sea Islands into notice, and cultivating a closer acquaintance with their peoples.

The Exhibition is held by and at the risk of a number of New Zealand colonists, who have subscribed a Guarantee Fund for the purpose, after the model of those upon which the Great Exhibition of 1851, the London International Exhibition of 1862, and the Adelaide Jubilee Exhibition of 1887 were carried out.

The Government of New Zealand have recognised this Exhibition as the Official Celebration of the Jubilee of the Colony, and issued invitations to the Governments of Australia and the other Colonies and Islands in the Southern Pacific to be officially represented thereat. They have further undertaken to assist the Exhibition by erecting the main building, which will contain the picture galleries, and themselves exhibiting collections illustrating the fauna, flora, geology, and mineralogy of New Zealand, as well as objects of historical interest. The Government will also with the assistance of the native chiefs organise a representation of Maori life and customs.

The Commissioners invite exhibits of all kinds from all Colonies, British and Foreign, wheresoever situated, as well as from Islands under British rule in the South Pacific. They are also desirous of obtaining Works of Art, Educational, Scientific and Machinery Exhibits from other countries; but ordinary Industrial Exhibits from Europe and America can only be admitted under special conditions. Inducements will be offered for the exhibition of processes of manufacture.

With the consent and support of the other chief cities of New Zealand, the Exhibition will be held in Dunedin, which is the centre of the railway system of the southern and most populous island of the Colony. A suitable site has been obtained in the heart of the town, close to the railway station and intercolonial wharves. A line of railway will deliver exhibits into the grounds.

The exhibition will be open to the public on Tuesday, 26th November 1889, and close about the middle of April 1890. It will be open in the evening as well as the day time.

The Government will issue customs regulations for the free admission of Intercolonial and Foreign Exhibits, similar to those in force at Melbourne and other Intercolonial Exhibitions, and similar railway privileges will be allowed for exhibits. The reproduction of exhibits will be prohibited by law.

CONDITIONS AND REGULATIONS.

1. Governments intending to take part in this Exhibition are requested to intimate the same as soon as possible. Applications for space for exhibits from Colonies officially represented must be made through the Commissioners of the Colonies to which the applicant belongs. Applications from countries and colonies not officially represented should be addressed directly to the Secretary at Dunedin.

2. Applications for space, with full particulars, are invited as early as possible, and in the allotment of space precedence will be given, as far as possible, to priority of application. No application will be received later than the 1st of July 1889. Forms of application and all information can be obtained from the Secretary.

3. The ordinary charge for space will be £1 1s. for the first ten square feet or any less space, and a shilling for every additional square foot. Sculpture and paintings approved by the Fine Arts Committee will be admitted free, as well as educational and scientific exhibits shown by Government departments, and exhibits in Classes 34 and 35. Machinery and bulky exhibits will be shown in special annexes, in which space will be charged for at the reduced rate of £1 1s. for the first 20 feet, and six pence for every additional foot. Wall space will be charged at the same rate as machinery. All applications must be accompanied by payment of the full amount of the space required. Special arrangements can be made for the exhibition of articles in the grounds.

4. The Exhibition will be ready for the reception of exhibits on October 1, 1889, and space not occupied by November 1, 1889, will revert to the Commissioners for reassignment. The Executive Commissioner shall at any time have power to reserve or reduce space which, in his opinion, is not fully occupied or misused.

5. The Executive Commissioner may issue at his discretion weekly licenses for the sale of articles manufactured in the Exhibition, but no other exhibit will be allowed to be taken out of the buildings until the close of the Exhibition; and any exhibitor selling goods for immediate delivery renders himself liable to the forfeiture of his space and all rights as an exhibitor.

6. The Exhibition building will be constituted a bonded store, but exhibits sold will be subject to duty.

7. The introduction of dangerous substances is strictly prohibited.

8. Packages intended for the Exhibition must be painted or labelled with the following device as a distinctive mark N. Z. E. together with the name of the exhibitor and country or colony in which court the exhibit will be shown.

9. Customs entries, transportation, receiving and arranging articles for exhibition must be undertaken by the exhibitor at his own expense, but no charge will be made for the carriage of goods intended for exhibition on the railway lines. New Zealand and Island exhibits will be carried free on the Union S.S. Company's boats, and Australian exhibits the double journey at single freight.

10. The protection of invention capable of being patented and of designs is secured by the patent law of New Zealand. No exhibit may be drawn, copied or reproduced in any manner whatsoever without the joint consent of the exhibitor and the Executive Commissioner. The Commissioners, however, reserve to themselves the right of authorising the production of general views.

11. If exhibits are not intended for competition, notice must be given in the application for space.

12. An official catalogue will be published in English by the Commissioners, by whom the sale of catalogues is reserved. Anything beyond the ordinary description of the exhibit, together with the name of the exhibitor, must be paid for as an advertisement.

13. The representatives of countries and colonies will be allowed to group their exhibits as they may think fit in that portion of the Exhibition buildings allotted to them, subject always to the approval of the Executive Commissioner.

14. Motive power will be supplied to exhibits of processes of manufacture free of charge on application to the Executive Commissioner; but the right is reserved of reducing the amount asked for, or to make a charge for certain portions of the motive power supplied at discretion. The Commissioners desire to encourage the display of machinery in motion, and of all descriptions of manufactures in progress. Requests for motive power must be made to the Secretary prior to 1st July 1889.

15. All shafting, pulleys, belting, machines, &c., for the transmission of power from the main shafting, must be provided by and at the cost of the exhibitor.

16. Judges will be appointed by the Commissioners, acting mainly upon the recommendation of the exhibitors themselves. Certificates of first, second, and third order of merit will be awarded.

17. The removal of exhibits from the Exhibition buildings and grounds must be completed within one month from the close of the Exhibition. Goods remaining after that period will be removed by order of the Executive Commissioner, at the risk of exhibitors and sold by auction or otherwise disposed of at his direction, and the net proceeds handed to the exhibitors or their duly appointed agents.

18. Every person who becomes an exhibitor thereby acknowledges and undertakes to observe the rules and regulations established from time to time for the government of the Exhibition.

19. The Commissioners reserve the right to alter, explain, or add to these regulations at any time whatever may be deemed necessary.

20. Precaution will be taken to preserve exhibits from injury and to guard the buildings, but no responsibility will be taken for damage or loss from whatever cause. Exhibitors will make their own arrangements for effecting insurances.

Form of applications for space and all further information can be obtained from

D. HARRIS HASTINGS, *Secretary.*

OFFICIAL PROGRAMME.

IT is intended to celebrate the Fiftieth Anniversary of the Foundation of the Colony of New Zealand by holding in the City of Dunedin an Exhibition of arts, industries, resources, and manners of New Zealand, Australia, and the other Countries and Colonies in the Southern Pacific.

The principal objects of this Exhibition are to practically illustrate the development of the resources of New Zealand during the first half century of her existence in comparison with the progress made by other Colonies, British and Foreign; to stimulate industry and promote Intercolonial commerce; to strengthen the natural ties which connect all the countries in the South Pacific Ocean, and to call attention to their position and potentialities.

The recent improvement in the commercial condition of New Zealand, and the prospect of prosperity immediately before her, offers special opportunities for the development of industry and the extension of Intercolonial commerce; whilst many considerations point to the desirability of bringing the importance of the South Sea Islands into notice, and cultivating a closer acquaintance with their peoples.

The Exhibition is held by and at the risk of a number of New Zealand colonists, who have subscribed a Guarantee Fund for the purpose, after the model of those upon which the Great Exhibition of 1851, the London International Exhibition of 1862, and the Adelaide Jubilee Exhibition of 1887 were carried out.

The Government of New Zealand have recognised this Exhibition as the Official Celebration of the Jubilee of the Colony, and issued invitations to the Governments of Australia and the other Colonies and Islands in the Southern Pacific to be officially represented thereat. They have further undertaken to assist the Exhibition by erecting the main building, which will contain the picture galleries, and themselves exhibiting collections illustrating the fauna, flora, geology, and mineralogy of New Zealand, as well as objects of historical interest. The Government will also with the assistance of the native chiefs organise a representation of Maori life and customs.

The Commissioners invite exhibits of all kinds from all Colonies, British and Foreign, wheresoever situated, as well as from Islands under British rule in the South Pacific. They are also desirous of obtaining Works of Art, Educational, Scientific and Machinery Exhibits from other countries; but ordinary Industrial Exhibits from Europe and America can only be admitted under special conditions. Inducements will be offered for the exhibition of processes of manufacture.

With the consent and support of the other chief cities of New Zealand, the Exhibition will be held in Dunedin, which is the centre of the railway system of the southern and most populous island of the Colony. A suitable site has been obtained in the heart of the town, close to the railway station and intercolonial wharves. A line of railway will deliver exhibits into the grounds.

The exhibition will be open to the public on Tuesday, 26th November 1889, and close about the middle of April 1890. It will be open in the evening as well as the day time.

The Government will issue customs regulations for the free admission of Intercolonial and Foreign Exhibits, similar to those in force at Melbourne and other Intercolonial Exhibitions, and similar railway privileges will be allowed for exhibits. The reproduction of exhibits will be prohibited by law.

CONDITIONS AND REGULATIONS.

1. Governments intending to take part in this Exhibition are requested to intimate the same as soon as possible. Applications for space for exhibits from Colonies officially represented must be made through the Commissioners of the Colonies to which the applicant belongs. Applications from countries and colonies not officially represented should be addressed directly to the Secretary at Dunedin.

2. Applications for space, with full particulars, are invited as early as possible, and in the allotment of space precedence will be given, as far as possible, to priority of application. No application will be received later than the 1st of July 1889. Forms of application and all information can be obtained from the Secretary.

3. The ordinary charge for space will be £1 1s. for the first ten square feet or any less space, and a shilling for every additional square foot. Sculpture and paintings approved by the Fine Arts Committee will be admitted free, as well as educational and scientific exhibits shown by Government departments, and exhibits in Classes 34 and 35. Machinery and bulky exhibits will be shown in special annexes, in which space will be charged for at the reduced rate of £1 1s. for the first 20 feet, and six pence for every additional foot. Wall space will be charged at the same rate as machinery. All applications must be accompanied by payment of the full amount of the space required. Special arrangements can be made for the exhibition of articles in the grounds.

4. The Exhibition will be ready for the reception of exhibits on October 1, 1889, and space not occupied by November 1, 1889, will revert to the Commissioners for reassignment. The Executive Commissioner shall at any time have power to reserve or reduce space which in his opinion, is not fully occupied or misused.

5. The Executive Commissioner may issue at his discretion weekly licenses for the sale of articles manufactured in the Exhibition, but no other exhibit will be allowed to be taken out of the buildings until the close of the Exhibition; and any exhibitor selling goods for immediate delivery renders himself liable to the forfeiture of his space and all rights as an exhibitor.

6. The Exhibition building will be constituted a bonded store, but exhibits sold will be subject to duty.

7. The introduction of dangerous substances is strictly prohibited.

8. Packages intended for the Exhibition must be painted or labelled with the following device as a distinctive mark N. Z. E together with the name of the exhibitor and country or colony in which court the exhibit will be shown.

9. Customs entries, transportation, receiving and arranging articles for exhibition must be undertaken by the exhibitor at his own expense, but no charge will be made for the carriage of goods intended for exhibition on the railway lines. New Zealand and Island exhibits will be carried free on the Union S.S. Company's boats, and Australian exhibits the double journey at single freight.

10. The protection of invention capable of being patented and of designs is secured by the patent law of New Zealand. No exhibit may be drawn, copied or reproduced in any manner whatsoever without the joint consent of the exhibitor and the Executive Commissioner. The Commissioners, however, reserve to themselves the right of authorising the production of general views.

11. If exhibits are not intended for competition, notice must be given in the application for space.

12. An official catalogue will be published in English by the Commissioners, by whom the sale of catalogues is reserved. Anything beyond the ordinary description of the exhibit, together with the name of the exhibitor, must be paid for as an advertisement.

13. The representatives of countries and colonies will be allowed to group their exhibits as they may think fit in that portion of the Exhibition buildings allotted to them, subject always to the approval of the Executive Commissioner.

14. FOREST DEPARTMENT.

The 1st August 1889.

No. 287.—*Notification.*—The following Circular of the Government of India, in the Revenue and Agricultural Department, publishing the prospectus of the Imperial Forest School, Dehra Dun, is republished for information :—

Circular No. 14F.

Extract from the Proceedings of the Government of India, in the Revenue and Agricultural Department (Forests) :—dated Simla, the 11th June 1889.

READ—

Circular Resolutions of this Department, No. 12-F., dated 30th May 1887, and No. 19-F., dated 27th September 1887, promulgating a revised " Memorandum of Conditions for the admission and training of Students at the Forest School, Dehra Dun."

RESOLUTION.

The further experience that has been gained in the management of the Forest School, and in the instruction afforded at that institution, has rendered some modifications necessary in the Memorandum of Conditions promulgated with the Resolutions quoted in the preamble above. The Governor-General in Council is, therefore, pleased to prescribe for adoption in future the following " Prospectus of the Imperial Forest School, Dehra Dun," in supersession of that Memorandum :—

Prospectus of the Imperial Forest School, Dehra Dun.

THERE are three Courses—one in English, for candidates for the Ranger's Certificate; a second in Hindustani, for candidates for the Forester's Certificate ; and a third and higher Course, for candidates for the Sub-Assistant's Certificate.

2. Three classes of students are admissible—

(1) Government students.

(2) Students from Native States.

(3) Private students.

ADMISSION OF GOVERNMENT STUDENTS.

To the Ranger's Course.

3. Government students may be selected by Conservators of Forests, acting under such orders as may from time to time be given by the Local Government or Administration concerned. Such students usually receive a Government stipend.

4. Students must on admission to the School be not less than 18 or more than 25 years of age. Exceptions to this rule require the previous sanction of the Government of India. Each candidate must furnish a certificate of sound health, good vision and hearing, from the Civil Surgeon of the station nearest to his place of residence.

5. It is the duty of the officer who selects the candidate to satisfy himself that he is of good moral character and active habits ; also that he possesses fair powers of observation, sense of locality, and such other qualifications as are necessary for an officer of the Executive Staff of the Forest Department.

6. For the above purpose, candidates may, before presenting themselves at the Entrance Examination, be required to prove their fitness for Forest work by service in the Subordinate Staff of the Department, either permanent or temporary, for a period of twelve months. Exceptions to this rule require the previous sanction of the Local Government.

7. Candidates for admission to the Ranger's Course must pass before an officer of the School, or before a Conservator of Forests (or such other Officer as the Local Government may appoint to represent him), an Entrance Examination in the following subjects, *viz.*—

English—composition and conversation.

Arithmetic.

Algebra—up to and including quadratic equations.

Elementary Plane Geometry.

Mensuration—lengths, area, and volume.

Conservators of Forests, including the Forest Officers of Coorg and Ajmere, are required to despatch to the Director, on the 15th March in each year, an application for the number of sets of examination papers to be sent to them for the candidates of their respective Circles, or an intimation that no such papers are required. The examination papers will be forwarded from the Director's Office under sealed cover, not later than the 15th of the following month.

The examinations will be held simultaneously throughout India on dates, between the 15th and the 25th May, fixed by the Director at the time that the examination papers are sent out. Examinations held on dates other than those thus fixed by him are treated as invalid. The candidates' written answers will, after countersignature (with date) by the Officer presiding at the examination, be returned in a sealed cover to the Deputy Director of the School. The Director will subsequently inform Conservators of the result of the examination.

To the Forester's Course.

8. Candidates for admission to the Forester's Course may be similarly selected; but in lieu of passing the Entrance Examination laid down in paragraph 7, must furnish a certificate of having passed the Middle Class Examination in the North-Western Provinces and Oudh, or an equivalent standard in another Province, as well as a certificate that they possess a competent knowledge of Urdu or Hindi.

To the Sub-Assistant's Course.

9. Candidates for admission to the Sub-Assistant's Course may be selected in the same manner as candidates for the Ranger's Course, and must satisfy the conditions required by paragraphs 3 to 5 for Ranger candidates. Unless they are University graduates in Arts, Science, or Engineering, they must pass an Entrance Examination in the following subjects, *viz.*—

English—composition and conversation.

Arithmetic.

Algebra—up to and including quadratic equations, the binomial theorem, progressions, permutations and combinations, simple and compound interest, annuities.

Elementary Plane Geometry.

Plane Trigonometry—up to and including the solution of triangles.

Mensuration—lengths, areas, and volumes.

Elementary Statics—composition and resolution of forces, moments, and the mechanical powers.

ADMISSION OF STUDENTS WHO ARE ALREADY FOREST RANGERS.

10. Forest Rangers who may be sent to the School in order to qualify themselves for further advancement either to the higher grades of Rangers, or to the class of Sub-Assistant Conservator, may be above the age laid down in paragraph 4, and are not required to furnish the medical certificate prescribed in that paragraph. They must, as a general rule, pass the Entrance Examination for admission to the Ranger's or the Sub-Assistant's Course, as the case may be; but in exceptional cases they may be admitted without passing that Examination, if the Conservator of Forests under whom they are serving can satisfy the Director of their ability to profit sufficiently by the instruction given at the School.

ADMISSION OF STUDENTS FROM NATIVE STATES.

11. Candidates from Native States must apply, through the Darbár, either to the Director or to a Conservator of Forests. The conditions for their admission are similar to those laid down for Government students. Compliance with paragraph 6 is, however, not insisted on; but it is considered desirable to depute candidates for one year's practical work under a British Conservator of Forests, prior to their joining the School.

ADMISSION OF PRIVATE STUDENTS.

12. Private persons, who may desire to join the classes, must apply for admission through a Conservator of Forests of the Province in which they reside and must otherwise comply with the rules.

13. Private students must supply their own note-books and stationery. Books from the book-depôt are supplied to them on cash payment only. Breakages and damages of School property must be paid for at once. As security for the due fulfilment of this condition, each private student, on entering the School, is required to deposit a sum of Rs. 50 with the Director, the balance of which will be returned to him when he leaves.

14. Private students must, during their stay at the School, defray their own expenses, including the cost of travelling. Fees are not at present charged.

GENERAL RULES.

15. Candidates admitted to the School must join at Dehra Dun on the 25th June next after the date of their passing the Entrance Examination.

16. The Courses of training extend over 21 months, the time being spent as follows:—

1st July—31st October	At Dehra.
1st November—22nd December	In camp.
23rd December—5th January	Vacation.
6th January—31st May	In camp.
June	Vacation.

17. At the close of the Course of instruction, successful students will receive a Ranger's, Forester's, or Sub-Assistant's Certificate, as the case may be. Students of special merit may be granted certificates with Honours. Students of the Ranger's Course who fail to obtain the Ranger's Certificate may be granted the Forester's certificate; and, similarly, students of the Sub-Assistant's Course who fail to obtain the Sub-Assistant's Certificate may be granted the Ranger's Certificate.

18. Students who have completed their Course leave the School at the end of March; but any student who has failed to obtain his certificate may, at the discretion of the Director, and with the sanction of the Local Government or Darbár, be retained for re-examination in June, or to complete another full year's course of instruction. Conservators of Forests whose students are about to undergo their final examinations are required to inform the Director, before the end of February in each year, as to the place to which each student on leaving the School is required to go, and as to the amount of the advance, if any, which may be given to enable him to reach it.

19. The average *minimum* monthly cost of living at the School is calculated to be as follows, *viz.*—

		Rs.
For students living in the Native style ...	Ranger's Class ...	30
	Forester's Class ...	24
	Sub-Assistant's Class ...	24
For students living in the European style ...	Ranger's and Forester's Classes ...	38
	Sub-Assistant's Class ...	58

The above figures include the cost of food, ordinary clothes, uniform, rent, books, and instruments. The expenses of travelling and camping of the year are calculated to come to something like an additional Rs. 4 per mensem for each of the two first-named classes, Rs. 7 for each of the next two classes, and **Rs.** 10 for the last class. The ordinary travelling allowances admissible to Government students who are in receipt of the above stipends will cover these expenses.

20. All Government students below the rank of Forest Ranger must, unless otherwise permitted by special order of the Director, live in the School quarters, if rooms therein are available. The rent charged varies from Rs. 6 to Rs. 18 per annum, according to salary. Private students may be given quarters on the same terms.

21. During the Course of instruction, the Director will furnish Conservators, or Darbárs of Native States, with monthly reports on the character, application and progress of the students sent by them to the School.

22. Students are liable to the following punishments :—

(1). Reprimand by the Teacher in class.

(2). Reprimand by the Director or the Deputy Director at any time.

(3). Reprimand before a Meeting, convened by the Director, of not less than three School Officers, one of whom must be either the Director or the Deputy Director. The proceedings of the Meeting will be reported to the Conservator or Native State deputing the student, and, if the Meeting so decides, a note of them will be made on his final Certificate.

(4). The Director, acting with the consensus of the Meeting referred to under (3), has power to inflict, in addition, a fine to the extent of one-third of the salary or allowances of the student for a period not exceeding three months.

(5). The Director, acting with the consensus of a full Meeting of the School Officers presided over by himself, has power to dismiss any student for misconduct; and a student thus dismissed cannot be re-admitted to the School.

The Director may remand any student who, in his opinion, is not sufficiently promising.

PROSPECTS OF GOVERNMENT STUDENTS.

23. Holders of the Ranger's Certificate are eligible, on the occurrence of vacancies in the Province or Circle to which they belong, for appointment to the class of Ranger; and, after five years' approved service as Ranger, they are eligible for promotion to the class of Sub-Assistant Conservator. Holders of the Forester's Certificate are eligible, on the occurrence of vacancies in the Province or Circle to which they belong, for appointment to the class of Forester. But any student who has gained the Forester's Certificate with Honours is eligible for appointment to the class of Ranger after two years' satisfactory service; and, similarly, any student who has gained the Ranger's Certificate with Honours is eligible for appointment to the class of Sub-Assistant Conservator after two years' satisfactory service.

24. No person who does not hold a Ranger's Certificate, or a Forester's Certificate with Honours, can be appointed to the class of Ranger, without the special sanction, in each case, of the Local Government. When, in consequence of the absence of qualified candidates, other persons are, under this rule, appointed to the class of Ranger, holders of the Forester's Certificate are *cæteris paribus* considered to have a prior claim.

25. Holders of the Sub-Assistant's Certificate are eligible, on the occurrence of vacancies in the Province or Circle to which they belong, for appointment to the class of Sub-Assistant Conservator. 26. Government students are required to continue in the Government Forest Service for a period of not less than five years after their return from the School, and a bond has to be given to this effect.

Punjab Government Notifications and Orders.

DEPARTMENT OF FINANCE AND COMMERCE.

Proceedings of the Hon'ble the Lieutenant-Governor in the Financial Department,—No. 1531, dated 6th August 1889.

RESOLUTION.—By the Punjab Government's Resolution No. 299, dated 5th February 1876, as amended by Circular No. 1442, dated 23rd April 1879, a collecting officer and a controlling authority were appointed in respect of each item of income in the accounts of the Provincial Services, the General Local Fund and the Police General Fund. The collecting officer was to be responsible for seeing that all income claimable was duly claimed, realized and paid into the treasury; and to this end he was to be supplied by the Accountant-General at the beginning of each year with a statement of the estimated receipts of the year under each head for which he was responsible. The duty of the controlling authority was, generally, to check and supervise the collector and, by comparing monthly statements of treasury credits supplied by the Accountant-General with returns of realizations submitted by the collecting officer, to satisfy himself that all collections had been duly paid into the treasury. Each controlling authority was to submit to Government at the end of each year statements of the receipts and charges of the Provincial Services for that year, in which the facts of the year were to be compared with the estimates and with the facts of the preceding year. Lastly, the Accountant-General was to supply the Government with a monthly variation statement comparing the receipts and charges of the Provincial Services and Local Funds during each month and during the year up to date with the estimates of the year and the realizations of the previous year for the same periods.

2. Apart from the procedure above described, which related only to the

and to the General Local and Police General Funds, rules existed in the Account Codes of the Government of India providing for (1) a monthly comparison of treasury statements of revenue under nearly all the heads of account, whether Imperial or Provincial, not covered by the Local Government's orders of 1876, with returns submitted by collecting officers; and (2), in the case of some items of the nature of fixed recoveries, for the maintenance of demand registers in the Accountant-General's Office. And in consequence of enquiries instituted by the Government of India the same system was by the orders marginally noted extended to a few heads of receipt which had previously not been subject to it.

Punjab Government's Nos. 1095 and 1097, dated 19th April 1880.

3. These arrangements have continued up to the present time, and are, the Lieutenant-Governor understands, sufficient for the main purpose in view. Various causes have, however, rendered the Resolution of the 5th February 1876 somewhat obsolete, though not practically inoperative. The General Local Fund and the Police General Fund have ceased to exist as separate accounts; a revised scheme of decentralization has been introduced; and several alterations have been made within the last few years in the method of exhibiting the major and minor heads of account. During the same period the Government of India has again pressed upon Local Governments the necessity of arrangements for securing the due realization of all revenue and receipts of Government and their proper entry in the accounts. A revision of the existing orders on the subject has accordingly been, for some time past, considered by the Local Government a matter of some importance. In view, however, of the extended scheme of Provincial Services, which was adopted in 1882-83, and of the recent transfers of income and expenditure to Local Bodies, the matter has been allowed to remain pending up to the present time. These transfers having, however, been practically completed for the present, it is now possible to revise the existing orders under which Treasury Accounts are compared with Departmental Returns for the purpose of securing the due realization of the revenue and receipts of Government in the Province.

4. In the first place, the Lieutenant-Governor is pleased to order the discontinuance as a separate return of the variation statement referred to in the first paragraph of this Resolution. The statement provides for a comparison of current actuals with the current estimates and the actuals of the previous year, but as the Government is supplied every month with separate returns of the current Provincial and Local Accounts compared with the proportionate estimates and grants, the whole purpose of the variation statement can be secured by providing extra columns in these returns for the exhibition of the actuals of the previous year. The Accountant-General has agreed to this, and in future therefore the monthly accounts of Provincial Services and Local Funds submitted by him to the Local Government will be prepared in the Forms A. and B. annexed, and the variation statement will not be submitted at all.

5. In the second place, the Lieutenant-Governor is advised that the annual statements of Provincial income and expenditure which Heads of Departments have hitherto been required to submit to the Local Government are not really necessary, and His Honor is therefore pleased to cancel the orders prescribing the returns contained in Circular No. 1442, dated the 23rd April 1879. In order, however, that the Local Government may satisfy itself periodically that the system of check prescribed in the following paragraphs is being properly carried out, the Lieutenant-Governor directs that each controlling officer shall certify annually to Government, either in his Annual Report or, in the case of receipts which are not dealt with in Annual Reports, by a separate letter, that the comparison of Departmental Returns received from collecting officers with the Treasury Statements supplied by the Accountant-General has been completely carried out for the year previous in respect of all heads of income for which he is responsible, that all differences have been reconciled, and that all sums due have, as far as possible, been realized and have been duly paid into the treasury. A paragraph should also be added to the Annual Reports comparing and reconciling the Departmental Accounts of revenue, and, in the case of the Jail, Police and Education Departments, of expenditure also, with the accounts of the same kept in the Accountant-General's Office.

6. Thirdly, the appended revised list C, showing the collecting officer and the controlling authority appointed by Government ...

and Provincial Revenues (except Forest and Public Works Department receipts, in regard to which other arrangements exist) of the Province, is substituted for the list appended to the Punjab Government's Resolution No. 299, dated the 5th February 1876. As explained in that Resolution, the duty of the collecting officer is to see that all income claimable is claimed, realized and paid into the treasury, and the duty of the controlling authority is to supervise the proceedings of the collecting officers and in particular to satisfy himself, by a comparison of returns submitted by collecting officers with statements of treasury credits furnished by the Accountant-General, that the amounts reported as collected have been duly credited in the accounts.

7. Except where a different procedure on the use of other forms are indicated by the foot-notes in list C, the controlling authorities shall, for the purposes just mentioned, be furnished monthly by the collecting officers with returns in the Form D. annexed of estimated and actual collections under the heads for which they are responsible and by the Accountant-General with statements showing for each district the amounts credited under the same heads in the Treasury Accounts. The Accountant-General will at the commencement of each year furnish collecting officers with the estimates of the year.

8. The Lieutenant-Governor desires that controlling authorities will bear in mind that, while the Accounts Department of the Government is responsible for the correct rendering of the accounts of all sums actually paid into the treasury and credited to Government, that Department is not responsible for the correctness of the demand and the correspondence of the amount that ought to be paid into the treasury with the amount actually realized. It should also be remembered that it is essential that the Departmental Returns submitted to controlling officers must not be compiled from returns prepared in the treasury. The Lieutenant-Governor especially desires that this caution may be carefully observed. Deputy Commissioners, and collecting officers generally, should personally satisfy themselves that their Departmental Returns are prepared absolutely independently of the Treasury Registers, and when for any reason it becomes necessary to compare Departmental Returns of revenue or receipts with the Treasury Registers locally, the comparison should only be made by the express order of the Deputy Commissioner or other collecting officer and the Treasury Officer.

9. Experience has shown that the principal causes of discrepancies between Departmental Returns and Treasury Accounts are, besides the want of sufficient care in the preparation of the former, (1) breach of the rule which requires that collections should at once be paid into the treasury and should on no account be utilized for expenditure, (2) differences of practice in stating the periods to which returns relate, and (3) mistakes of classification.

Taking together the first two special causes of discrepancies above noted together, collecting officers should carefully bear in mind that collections must not, on any account whatever, be kept out of the treasury, but should be paid into the treasury on the actual date of receipt, funds to meet authorized charges connected with such collections being drawn separately from the treasury on a proper voucher. When, however, for any reason, whether in consequence of neglect or otherwise, money realized in one month is not paid into the treasury till the following month, or has been drawn upon wholly or in part to meet authorized charges, the facts should be distinctly stated in the Departmental Returns for the month of realization in order that the controlling officer may understand the reason for the short credit in the Treasury Accounts. It should also be observed that the Departmental Returns for each month must deal only with the amounts realized in the month without reference to the period to which the realization relates. Thus it may happen that income due in April of any year is not realized until July. In such a case the income should appear in the Departmental Accounts of July, not in those of April. In other words, the Departmental Returns of each month should be closed with the last day of the month to which they relate, and, having been once closed, should not be added to or altered in any way whatever. As regards sub-treasuries, the orders contained in Chapter 17, Rule 24, of the Civil Account Code, regarding the formal closing of the accounts for the month, should be carefully borne in mind.

10. In regard to mistakes of classification the same principles should apply. If the mistake is discovered before submission of the Departmental Return to the controlling officer, the return may be corrected, intimation

being at the same time sent to the Treasury Department in order that the wrong classification in the treasury books may be corrected. When, however, the mistake is discovered after submission of a Departmental Return, the correction should be made by a foot-note in the next return clearly explaining the mistake, and intimation should also be sent to the treasury. As regards the Treasury Department, all errors of classification, whether originating in the treasury or otherwise, are separately reported to the Accountant-General under standing orders. The Accountant-General will therefore be able to arrange to forward monthly to controlling officers along with his Treasury Returns a statement showing clearly all such corrections reported to his office, and also all additions to the Treasury Accounts of revenue and receipts, such as cash recoveries of expenditure added to revenue instead of being deducted from charges, which are made by adjustment in his office. This will be done in future and will enable controlling officers to exercise an immediate and thorough check over all Departmental Returns submitted to them.

11. Care should also be taken that the classification of the Departmental Returns is in strict accordance with that shown in Appendix C. of this Resolution in order that it may agree with that of the Treasury Accounts. It should also be borne in mind that the budget estimates and grants of a year are those which receive the approval of the Government of India, and which are communicated to Heads of Departments by the Accountant-General, and not those budget estimates which Heads of Departments submit to the Accountant-General. Much confusion has arisen in the past from the mistaken notion of officers as to what are the estimates and grants for a year; some officers being still under the impression that the grants and estimates, proposed originally by themselves and not those finally sanctioned by the Government of India, were the estimates with which the actual receipts and charges of the year had to be compared. In order that no such mistakes may arise in future, the Accountant-General will arrange—if this is not already done—to supply controlling officers with a copy of the sanctioned budget estimates of the Departments over which they exercise control, and in all comparisons or references these estimates should alone be referred to.

12. It will be observed that the above orders regarding the comparison of Departmental with Treasury Returns relate to revenue and receipts only. No such systematic check has been maintained in respect to expenditure. In view, however, of orders passed by the Government of India, the Lieutenant-Governor is of opinion that, while it is not for the present, at any rate, necessary to institute any such comparison in respect to all expenditure, circumstances have shown that such a comparison should be prescribed for the expenditure of the Jail, Police and Education Departments. The Heads of these Departments should, in future, be supplied by the Accountant-General monthly with statements showing under the various heads of account the amounts disbursed to the several officers in their Departments on salary, contingent and other bills, and separately the amounts debited by adjustment in the Accountant-General's Office against the Budget grants of the Departments. These statements should be compared with Departmental Returns, which should be submitted to the Heads of the Jail, Police and Educational Departments by their own officers, and, so far as they apply, the directions of Government in regard to the preparation and comparison of Revenue Returns and Accounts should be carefully observed in dealing with the preparation and comparison of returns and accounts of expenditure.

13. In conclusion, it may be explained that, pending the orders of Government on a comprehensive scheme for the regulation and audit of Local Funds Accounts, the question of the comparison of the revenue and receipts of Local Funds is omitted from the present orders.

ORDER.—Ordered that the foregoing Resolution be forwarded for information and guidance to the Accountant-General, Punjab, and to all Heads of Departments, Commissioners, Deputy Commissioners, and other officers concerned. Also that it be forwarded for information to the Secretary to Government, Punjab, Public Works Department, and to the Joint-Secretary to Government, Punjab, Public Works Department, Irrigation Branch; and that it be published in the *Punjab Government Gazette*.

RESOLUTION.—The fourth annual meeting of the General Educational Conference was held at Lahore in the month of May. The Conference met on the 14th May and continued its sittings until the 17th. The names of the members are noted in the margin.

2. The following subjects were discussed by the Conference:—

(1). The further extension of education amongst agriculturists.

(2). Failures in recent University Examinations and the measures to be taken in consequence.

(3). The expediency of moving the University to prescribe text-books in languages for the Entrance and Middle School Examinations.

(4). A petition made on behalf of students of Girls' schools, that female candidates may have the option of taking up a vernacular language in lieu of Arabic, Persian, or Sanskrit, as an optional subject for the Entrance Examination.

(5). The expediency of allowing students of Aided schools, who pass the Middle School or Entrance Examination in three out of the four compulsory subjects, to earn staff grants.

(6). The expediency of allowing students of Board schools to enter High Departments after examination by the Head Masters, without passing the Middle School Examination.

(7). The degradation of boys attending the 3rd and 5th classes of Secondary schools to a lower class shortly before the Middle School and Entrance Examinations, with the view of avoiding the provisions of Circular No. 34—2208 of 1st December 1888, under which all boys who have completed the courses may appear at the examinations.

(8). The question of reckoning the attendances of boys, who are engaged in a cricket match or are given leave to prepare for the Middle School and Entrance Examinations.

(9). The expediency of allowing a certain interval to elapse before further raising the rates of fees in Arts Colleges and Anglo-Vernacular Schools.

(10). The question of giving special grants equivalent to staff grants or granting special certificates, under Article 133 of the Code, to teachers who were employed in Primary branch schools before the introduction of the Code, in cases where such teachers, though not capable of holding charge of an Upper Primary school and ineligible for Junior Vernacular Certificates, are considered capable of teaching certain subjects in the Lower Primary department, and it is thought advisable to retain their services.

(11.) Measures for checking misrepresentation with regard to the age of candidates for scholarships.

3. In 1886-87, when additional funds were placed at the disposal of District Boards and Committees for the extension of primary education, these bodies were required, amongst other measures, to establish Zamíndárí schools, that is Primary schools, in which special arrangements are made to suit the requirements of agriculturists. It was determined, that in these institutions the course of study in the Lower Primary department should be the same as in ordinary Primary schools, and that, in accordance with a scheme recommended by the Committee on Technical Education, surveying, village accounts and patwári's work should be taught in the Upper Primary department, besides Mensuration and the Agricultural Primer, which are taught in all Upper Primary schools. The extent to which this measure has been carried out varies considerably in different districts. Up to the end of the last School year, however, 127 Zamíndárí schools had been set on foot, and others were in course of formation. The schools were attended generally by boys drawn from the same classes as those who are found in ordinary Primary schools; and, although, in consequence of the recent establishment of the Zamíndári schools, few of the scholars had advanced beyond the Lower Primary department, it appeared that discontent had been expressed in some quarters at the substitution in the Upper Department of special subjects for those ordinarily taught; as this would preclude the scholars from the prospect of obtaining open scholarships and from joining schools for Secondary education on the completion of the Primary course. There seemed little prospect that the Zamíndárí schools, as at present organised, would prove successful in attracting any considerable number of the sons of the great mass of agriculturists, who are unwilling to send their children to the ordinary Primary schools.

It was under these circumstances, that His Honour the Lieutenant-Governor instructed the Director of Public Instruction to consult the Educational Conference, as to the measures that should now be taken, in order to ensure the further extension of education amongst the great agricultural class, to which the bulk of the population in this Province belongs, and which pays the rates from which the cost of Primary education is mainly met.

4. The recommendations of the Conference on this subject are to the following effect:—

(1). The following subjects and these only should be taught in Zamíndárí schools:—

(*a*). *Reading.*—In a vernacular (*viz.*, Urdú, Hindí, Panájbí or Pushtu) to be fixed upon by the District Committee after consulting the people of the village in which the school is to be started.

(*b*). *Writing.*—As above.

(*c*). *Arithmetic.*—By strictly Native methods,* including the simplest form of banias' accounts. To be taught in the local Mahájaní character.

Of these three subjects Arithmetic is to be considered the most important.

(2). There should be two school meetings morning and evening of three hours each, each boy being expected to attend one only of these school meetings.

(3). The schools should be closed during harvest, for such time as the District Board shall in each district direct.

(4). The standards shown in Appendix I to this Resolution, each of them ordinarily representing one year's course, should be adopted in Zamíndárí schools.

The standards in Reading and Writing are based on those laid down in the Punjab Education Code for the award of instruction grants in Aided, Indigenous, Low-caste and other Elementary schools; but they have been considerably lowered in view of the class of children who will attend, and the fact that they will be expected to attend half time only, and that the schools will be closed altogether during the time of harvest.

The standards in Arithmetic are based on those laid down by the Department in the scheme of studies for branches of Board schools in which Mahájaní is taught.

(5). The existing Zamíndárí Board schools should be remodelled in accordance with the above proposals.

(6). The experiment of establishing Zamíndárí Board schools of the kind proposed should be carried out as far as possible in every tahsíl; and should be gradually extended as the demand for such schools increases and the state of the funds will allow.

(7). The Zamíndárí schools should not in any way supersede the existing Primary schools, which should be maintained as at present.

(8). With the view of encouraging the establishment of Zamíndárí schools under private management, the grant-in-aid rules for Indigenous and Elementary schools, as laid down in chapter III of the Punjab Education Code, should be applied to Zamíndárí schools under private management with the modifications shown in Appendix II to this Resolution.

* NOTE.—Except in so far as it may be impossible to teach the simple and compound rules by Native methods.

The most important modifications are—

(*a*). Staff grants (*i.e.*, fixed grants in part payment of the salary of a teacher) may be given to men of lower qualifications than are required in the case of Indigenous schools.

(*b*). An extra grant may be given for a teacher trained for the work in a Normal School.

(*c*). Instruction grants for Reading and Writing are doubled and those for Arithmetic trebled.

(*d*). An instruction grant can be earned by a scholar who passes in arithmetic only. (Under the ordinary rules he cannot earn a grant unless he pass in two subjects.)

(*e*). Instruction and attendance grants can be earned by children of the following classes only :—

(*i*). Sons of proprietors or tenants who cultivate fields with their own hands.

(*ii*). Sons of farm labourers.

(*iii*). Sons of persons included under the term of village *kamín*.

(*f*). A limit to be determined by the Director of Public Instruction is to be placed on the total amount that can be earned by a school.

(9). A text-book of Arithmetic by Native methods should be prepared as soon as possible.

(10). Eventually measures should be taken to prepare special readers suitable for use in Zamíndárí schools.

(11). Classes for instruction in native arithmetic and banias' accounts in Nágrí and in Gurmukhí should be established in Normal schools; teachers as far as possible selected from the agricultural classes should be encouraged to attend them ; and teachers, who have been so trained in any one of these subjects, should receive Re. 1 extra when engaged in a Zamíndárí school.

NOTE.—When a sufficient demand for these teachers has been created it will be well to exclude Persian from their Normal school course.

5. The above recommendations meet with the general approval of the Lieutenant-Governor ; and His Honour has determined to accept them, subject to a few alterations, as indicated in the following remarks.

As regards the first recommendation, which deals with the subjects of instruction in Zamíndárí schools, it would, in His Honour's opinion, be too much to expect that the children of the class for whom it is desired to provide can be taught the Mahájaní character, in addition to any other that may be chosen for Reading and Writing ; and His Honour is therefore pleased to direct that the rule as to instruction in Arithmetic shall stand as follows :—

(*c*). *Arithmetic.*—By strictly Native methods.* To be taught in Mahájaní figures unless the District Committee decide that any other figures shall be used.

NOTE.—If in any district it should be impracticable at present to provide teachers in Zamíndárí Board schools qualified to teach Arithmetic in accordance with the above rule, the ordinary system of teaching Arithmetic may be followed as a temporary arrangement ; but purely Native methods should be introduced as soon as possible.

6. His Honour desires that the fifth recommendation, regarding the re-organization of the existing Zamíndárí schools in accordance with the new system, should be carried out at once in all cases, unless the Deputy Commissioner reports that there is, for some special cause, a strong objection to such a measure.

* NOTE.—Except in so far as it may be impossible to teach the simple and compound rules by Native methods.

7. The sixth recommendation, regarding the establishment of new Primary schools, is fully approved by His Honour. Nearly the entire cost of District Board Primary schools is borne by District Funds, which contribute largely to other educational objects, and it is the agriculturists, who pay the rates. The great mass, moreover, of the population in the rural tracts and villages where District Board Primary schools exist consists of agriculturists. We find, however, that nearly two-fifths of the boys attending these Primary schools belong to the non-agricultural classes, who pay less than one-twelfth part of the cost of the schools, and constitute a mere fraction of the people. It is indeed too evident that, although our schools as at present constituted are suitable enough for the children of non-agriculturists and some well-to-do agriculturists, who constitute the bulk of the scholars, they do not meet the requirements of the great mass of peasant proprietors and tenants who labour in the fields. It is to attract to school the sons of this class, without withdrawing them from their hereditary occupations, that the present scheme has been framed. His Honour looks to Deputy Commissioners to give the experiment a fair trial; and he is pleased to issue the following directions on the subject :—

(1). Where arrangements have not yet been made for the annual expenditure on the objects specified in Circular No. $\frac{4}{189}$, dated 24th December 1886, from the Director of Public Instruction and Under-Secretary, Home (Education) Department, of the full amount placed at the disposal of District Committees for the extension of Primary education, the matter shall be taken in hand by the Deputy Commissioner, who will press it on the District Committee and take care that arrangements are at once effected for the expenditure on the establishment of new Zamíndárí schools, of the type now prescribed, of the entire balance of the amount in question, or at least of such portion thereof as may be necessary to secure the maintenance of one Zamíndárí school of such type in every tahsíl.

In every case a report in a form to be prescribed by the Director of Public Instruction, showing the manner in which the above order has been carried out, shall be submitted to that officer through the Inspector of the Circle before the 1st November next.

(2). In every district, where the expenditure of the District Board or Committee falls short of the minimum expenditure that may be required by Government, the Board or Committee shall be required to make provision up to the above limit in the budget of 1890-91 for the maintenance of at least one Zamíndárí school of the type now prescribed in each tahsíl, unless specially exempted from so doing by Government. No exemption will be given unless timely application is made through the Commissioner and weighty reasons supported by the Commissioner can be assigned for such exemption.

8. With regard to the eighth recommendation, clause (*f*), His Honour is pleased to direct that the total grant awarded to an Aided Zamíndárí school shall not exceed the average cost of educating an equal number of scholars in a Board Zamíndárí school, and that in making this calculation non-agriculturists, except those coming under the designation of village kamín, shall not be taken into consideration.

9. It is clearly desirable, as proposed in the ninth recommendation, that teachers should be trained for employment in Zamíndárí schools. This measure will involve some additional expenditure from Provincial Revenues; and the Director of Public Instruction will be instructed to submit proposals, based on the suggestions, that have been offered on the subject by the Departmental Conference.

10. In addition to the recommendations of the Conference, as modified by the above orders, His Honour is pleased to issue the further instructions noted below regarding Zamíndárí schools—

(1) In Zamíndárí Board schools fees shall be levied from non-agriculturists at the rates laid down for Board Primary schools of the ordinary kind.

(2) All officers in Government employ, all members of District Boards and Committees, Zaildárs, Lambardárs and Village Officers are required to use their influence with the view of securing a good attendance in Zamíndárí schools of the class of boys for whom these schools are mainly designed, that is to say the sons of the village proprietors and tenants who live by agriculture and themselves work in the fields; and Commissioners and Deputy Commissioners are requested to take care that this order shall receive due attention in all cases.

Government has a right to expect that all officers will endeavour to promote education amongst the backward classes generally. But the agricultural classes have a very special claim; the present scheme, though providing for the elementary education of their children, will not prevent them from still working in the fields; and under these circumstances His Honour considers that all the influence which officers of Government and leading men can exert may be safely applied to secure attendance.

11. His Honour is also pleased to direct that Instruction grants awarded to ordinary Indigenous, Elementary, or Low-caste schools under Article 107 of the Punjab Education Code, 2nd Edition (Article 113, 3rd Edition), shall be doubled in cases where they are earned by children of the following classes:—

(*i*) Sons of proprietors or tenants who cultivate fields with their own hands.

(*ii*) Sons of farm labourers or of persons included under the term of village *kamín*.

12. The recommendations of the Conference with regard to the measures that should be taken in consequence of the recent failures in University Examinations are of great importance.

The University Examinations are intended to serve a number of different purposes. These examinations are indeed—

(1) *Leaving examinations*, which should show that a student, who has completed a given course, has acquired such proficiency in it, as may be expected from a youth of ordinary ability, who has been taught fairly well.

(2) *Entrance examinations*, which should show that a student has acquired sufficient knowledge of the course, through which he has passed, to enable him to carry on his studies to a higher standard with advantage.

(3) *Examination for instruction grants*, determining the amount that is to be awarded on the results system to Aided schools.

(4) *Public Service examinations*, indicating that a student has attained to the Middle school standard, which is the minimum required in the case of appointments carrying a salary of Rs. 15 per mensem and over, or that he has reached some higher standard which will *cæteris paribus* give him a preferential claim for employment.

(5) *Scholarship examinations*, determining the award of all scholarships paid from public funds and most of those awarded from private sources.

It is evident therefore that these examinations must exercise a very wide influence on the Schools and Colleges throughout the Province.

It is evident, moreover, that if the examinations are made too difficult, they cannot show whether or not a youth of average ability has been fairly well taught, and in this case they fail altogether to satisfy the object set forth in (1), (2) and (3) above, and they fail also to afford to Government, the Education Department, and the public any reliable data, on which to judge of the efficiency of public institutions and the educational progress of the Punjab, as compared with other Provinces, or even of the comparative merits of one institution in the Punjab as compared with another. If, indeed, the examinations are beyond the capacity of an ordinary student, they become positively injurious to the best interests of education, as they hold out the strongest inducement to the teacher to neglect the mass of students and devote himself to a few picked scholars.

Regarded as a test for admission to the public service, moreover, it is most undesirable that the examination should be so difficult as to exclude the student of ordinary capacity. For some appointments, no doubt, the main object is to obtain men of the highest intellectual powers; and in such cases perhaps a competitive examination may be the best test that can be applied. There are, however, many appointments in which all that is necessary or desirable is to make sure that the candidate has received a fairly good education of an elementary kind; and, this being secured, the selection should depend largely on other qualifications besides those which enable a young man to shine in an examination.

Even for the award of scholarships an examination, which is unduly hard in each individual subject, is likely to be unsatisfactory; as it is quite possible that some of the ablest scholars may be disqualified by failure in one subject.

For the same reason a high percentage of pass marks in each subject may cut short the career of many a student, who might attain the highest distinction in those branches for which he has a special talent.

13. Now the Punjab University has fixed a higher percentage of pass marks in each subject than any other Indian University, the difference in the case of the higher examinations being enormous, whilst the standard of the question papers fluctuates in a manner which is unknown elsewhere.

In fixing this high percentage the Senate no doubt adopted what seemed to it at the time to be the best course; and it was actuated apparently by the hope that such a measure would raise the standard of education throughout the Punjab. This hope has not been realized; the great majority of students fail in the examinations; and the examinations do not meet the objects with which they are held, whilst no advantage of any kind has been gained.

14. The fluctuations of standard have been so great, that in some cases the great majority of students have passed in one year in some particular subject, whilst there has been a wholesale failure in the same subject in the next year, though it is certain that there has been no material change in the average attainments of the students.

15. It has never been supposed that the inhabitants of Delhi are below the average in mental capacity. The College is provided with some of the ablest Professors that our English Universities can supply; and none could be more devoted to their work; and yet it appears that not one single candidate was successful in the recent B. A. Examination, though the class does not appear to have been in any way inferior to a class of the same College which achieved signal success two years ago. Numerous examples of a similar character might be cited, though the one above is sufficient to show that the examinations as now conducted do not afford an adequate test of the work of the educational institutions of the Province.

16. Under these circumstances the Educational Conference have offered various suggestions for the modification of the rules by which the University examinations are at present regulated.

They recommend, in the first place, that the percentages of pass marks shall be so far lowered as—

(*a*) to assimilate them to some extent to the standards adopted in other Indian Universities; and

(*b*) to enable proficient and well-taught students to pass the examinations.

17. His Honour the Lieutenant-Governor fully concurs in the principle here advocated. He considers it unreasonable and undesirable that the students in this Province, where education is of comparatively recent growth, should be expected to satisfy conditions, in order to obtain a mere pass, which are not exacted, and in all probability could not be fulfilled, by students in any other part of India.

A place in the first division, however, in University examinations might, he thinks, be made difficult to attain and carry honours.

18. The exact percentages recommended in each case by the Conference are given below. It is needless to discuss these details on the present occasion; but His Honour observes that should the recommendations of the Conference on this point be adopted, the percentages, except in the case of the Entrance Examination, will still be higher than those required by the University of Calcutta :—

Middle School and Entrance Examinations.	
English	33
For Vernacular candidates for the Middle School Examination—	
Euclid and Algebra	33
For Vernacular candidates for the Entrance Examination—	
Elementary Mathematics	33

In the aggregate	50

19. The recommendation which stands next in the order of importance is intended to secure uniformity of standard in the examinations. The University has lately arranged for the preparation of model papers in all subjects, and this is no doubt a very useful measure. It has been ruled also that the examination papers after they have been issued shall be scrutinised by a Board of Studies, who can, if necessary, point out to the Examiners anything which they may consider unsuitable in the papers or contrary to rule, and request them to make the necessary allowances when awarding marks. The Conference hold, however, that the moderation of examination papers after the event and other similar expedients cannot be expected to secure fairness and uniformity in examining; and they therefore consider that the appointment of moderators with certain defined duties is essential in all cases where it is practicable.

They consider also that the moderators should in all cases be those, who are practically and professionally acquainted with the standards of examinations and resident in the Province, and that the scrutiny of the papers by the moderators should take place in the Senate Hall and in the presence of the Registrar.

A firm conviction is expressed, that it is in any case quite practicable to make satisfactory arrangements for the moderation of papers set for the Middle School, the Entrance, and the Intermediate Examinations.

It is contended, moreover, that Professors of any subject are eligible to act as moderators in that subject, for the examination at which candidates, who have attended their lectures, are about to appear, provided—

(a) that no Professor, employed as a moderator, shall give instruction in the subject he professes to any candidate for the examination, after having moderated;

(b) that no Professor, employed as a moderator, shall substitute for a question set by the Examiner a new question set by himself in the subject he professes and in the standard for which he prepares candidates.

If the views expressed in the preceding paragraph be accepted, it is, the Conference consider, quite practicable to arrange for the moderation of papers set for the Degree Examinations.

20. His Honour the Lieutenant-Governor concurs with the Conference in holding that the appointment of moderators is desirable; and there is, he considers, no valid objection either to the scrutiny of the papers in the manner proposed or to the employment of Professors as moderators in the subjects which they profess.

21. The Conference propose that the duties of moderators shall be defined in the following terms, and to this His Honour sees no objection:—

(a) To scrutinise, in consultation with the Registrar, the papers of Examiners before they are printed or lithographed.

(b) To make such alterations, in consultation with the Registrar, in the question papers, as they consider necessary. As far as possible this shall be done in consultation with the Examiners.

(c) To re-examine a sufficient number of answer papers in order to see whether the Examiners have complied with the University Regulations in their system of marking, and, if necessary, to direct the Examiner to revise his marks.

22. The third proposal of the Conference relates to the oral examination at the Entrance, the Intermediate and the B. A. Examinations in English. They recommend—

(1) That the present system, which they consider unsatisfactory, should be reconsidered by the University and placed on a better footing.

(2) That if the University do not see their way to develop the oral test in English, they should be asked to abandon it altogether, as the Conference do not consider that the oral examination, now held in reading only, is of any practical value.

(3) That if the University do not agree either to develop the oral examination or to abolish it altogether, they be asked, whilst retaining the present test, to arrange that the percentage of pass marks shall be fixed with reference to the marks awarded for the written examination only; so that any marks that may be awarded for reading will help to determine the position of a passed candidate in the pass list, though they will not contribute to his success in obtaining a pass.

(4) That for the B. A. Examination the oral test in English should not in any case form a separate and compulsory subject as it does at present.

His Honour understands that the restriction of the oral test to reading is due to the practical difficulty of making satisfactory arrangements for conducting a more comprehensive oral examination. His Honour is disposed to attach some value to the retention of the test in reading. He sees no objection, however, to the adoption of the third and fourth proposals.

23. The fourth recommendation is that for the Middle School Examination no candidate be allowed to take up more than two optional subjects.

There are four compulsory subjects for the Middle School Examination and four for the Entrance Examination. Three of these in the case of Anglo-Vernacular candidates are the same for both; but in the Entrance Examination Persian, Arabic, or Sanskrit takes the place of a Vernacular language, which is the fourth compulsory subject for the Middle School Examination.

In Board Middle schools the Science Primers, Persian, and Arabic (or an alternative subject) are taught, in addition to the four compulsory subjects, and may be taken up as optional subjects for the Middle School Examination. The student, who passes the Middle School Examination in the Science Primers in Persian and in Arabic, continues the study of these three subjects in the High Department, and takes up one of them as a compulsory subject and the other two as optional subjects for the Entrance Examination. If the number of optional subjects, that may be taken up for the Middle School Examination, be reduced from two to three, it will be impracticable to teach more than two of the three optional subjects above referred to (*viz.*, the Science Primers, Persian, and Arabic or an alternative subject) with any efficiency in Middle schools, as boys will not give proper attention to a subject which has no place in the examination. A student therefore on entering the High Department will be in a position to read two only of these subjects, as he will not have acquired a sufficient preliminary knowledge of the third; and one of them being a compulsory subject for the Entrance Examination, he will be able to take up one only as an optional subject for that examination. Hence the proposed rule, if adopted, will have the practical effect of reducing the number of optional subjects that can be taken up for the Entrance Examination from two to one, and will give rise to important changes in the scheme of studies now followed both in Middle and in High schools; and the question will require careful consideration from this point of view before any final decision is arrived at.

24. The last recommendation offered by the Conference in connexion with this subject is, that in the Middle School Examination in Arithmetic and Mensuration, which together form one subject, the marks for Arithmetic be raised from 70 to 90, and that those for Mensuration be reduced from 70 to 50. This proposal appears to His Honour the Lieutenant-Governor to be a judicious one.

25. As regards text-books in languages, the Conference recommend, that for the Middle School and Entrance Examinations text-books shall be prescribed in all languages, on the understanding that such text-books shall be of moderate compass, especially in English. It is difficult to induce the students to give sufficient attention to an accurate study of the books they are required to read in school, when they are not examined in those books by the University, and it is believed that if text-books were prescribed by the University, this would tend to promote more accurate study.

If text-books are prescribed for these examinations elsewhere, His Honour sees no objection to the adoption of a similar practice in the Punjab.

26. With reference to a petition submitted by the Secretary of the Zanána School Committee, Mori Gate, Delhi, it was resolved that the University should be moved to allow female candidates, as requested by the petitioner, to take up a Vernacular language as a compulsory subject in place of a classical language or Persian for the Entrance Examination, Arts Faculty of the Punjab University, on the understanding that a second Vernacular language shall not be taken up as an optional subject. His Honour is disposed to concur in this recommendation.

27. The Conference recommend that instruction grants may be earned by students of aided schools, who pass the Middle School or Entrance Examination in three out of the four compulsory subjects, provided that in the case of Anglo-Vernacular candidates English be one of those subjects, and in the case of Vernacular candidates mathematics.

His Honour is pleased to sanction this proposal on the understanding that the grant earned, by students who pass in three subjects, only, shall be fixed at one-half the amount that would be earned, if they passed in the four compulsory subjects.

28. Promotions from one department to another of schools under public management are regulated by Article 336 of the Punjab Education Code, 2nd Edition (Article 395, 3rd Edition). In order to obtain promotion from the Middle to the High Department boys attending such schools must have passed the Middle School Examination, otherwise the sanction of the Inspector is necessary. The Conference, who had been requested to consider whether it would be expedient to change this rule, recommended that no alteration should be made.

29. It has been found that in order to avoid the rule, under which School Masters are required to allow boys, who have regularly attended the class preparing for the Middle School or Entrance Examination, to present themselves at such examination, the Masters in question sometimes make a practice of degrading boys to a lower class shortly before the Examination is held. In order to prevent this practice a proposal was made that no degradations from the third and fifth classes of Secondary schools should be permitted without the sanction of the Inspector. It was, however, resolved by a majority to recommend that such degradations should be absolutely prohibited. His Honour thinks it might be inconvenient to lay down an absolute rule on the subject that will admit of no exceptions; but he considers that such degradations should not be permitted except in very special cases, and with the previous sanction of the Inspector.

30. The three following proposals are approved—

(*a*) that for the purpose of calculating attendance grants and the number of attendances required to obtain instruction grants it be competent for the Inspectors to reckon cricket leave when duly certified by the Manager up to a limit of ten days;

(*b*) that the above concession be extended to the case of students who obtain leave to prepare for the Middle School and Entrance Examinations up to a limit of fifteen days;

(*c*) that provision be made in the form of a note to Article 175 of the Punjab Education Code, 2nd Edition [or clause (*c*) of Article 200, 3rd Edition], so as to enable scholarship-holders to draw their scholarships during the periods referred to in the two preceding proposals.

The form of the note suggested by the Conference seems to require some slight modification which will be carried out by the Director of Public Instruction.

31. Under the rules regarding the levy of fees in Anglo-Vernacular Schools and Arts Colleges proposed by the General Educational Conference and sanctioned by Government in 1886, provision was made for a large increase of the rates in the first instance, and for an annual increment by which those rates should be doubled at the expiration of five years. A considerable number of the members of the Conference recently assembled at Lahore submitted an application through the Director of Public Instruction, requesting that the Conference might be permitted to consider the advisability of a temporary suspension of the annual increments, and to this request His Honour the Lieutenant-Governor was pleased to accede. After a discussion of the question by the Conference a resolution was proposed, that the rates of fees fixed for the school and college years beginning in different months of the financial year 1889-90 should remain in force for the two following years, *i.e.*, for three years in all, after which the progressive rates should be enforced. To this resolution an amendment

was proposed, in which provision was made for an increment in the rates of fees after every two years, instead of annually as at present, so as to allow of some respite between each increase of fees. The amendment was lost, and the original motion was then adopted by the Conference. His Honour the Lieutenant-Governor is inclined on the whole to prefer the amendment, and is pleased to order that the arrangement therein proposed shall be carried out. The rates of fees fixed for the school and college years beginning in different months of the financial year 1889-90, when the third increment should take place, will remain in force during the following year also; at the expiration of which the fourth increment will be made; and the fifth increment will be made in 1893-94 instead of in 1891-92 as provided in the existing rules.

32. The Conference recommend that special certificates under Article 133 of the Punjab Education Code (or Article 140 of the 3rd Edition) may be granted to teachers, who were employed in Primary branch schools before the introduction of the Code, in cases where such teachers, though not capable of holding charge of an Upper Primary school and ineligible for Junior Vernacular Certificates, are considered capable of teaching certain subjects in the Lower Primary department, and it is thought advisable to retain their services. This proposal is sanctioned, and a note on the subject will be inserted in the Code.

33. With the view of checking misrepresentations with regard to age on the part of candidates for scholarships, the Conference recommend—

(a) that candidates for the Upper Primary, Middle School and Entrance Examinations be cautioned, that any misrepresentations of age will render them liable to the withholding or withdrawal of their certificates, or even to expulsion from school; and

(b) that teachers convicted of wilfully abetting misrepresentation with regard to the ages of candidates for examinations shall be liable to dismissal.

The above recommendation is approved. The Punjab University will be addressed with regard to the Middle School and Entrance Examinations, and on the receipt of a reply the necessary rules on the subject will be inserted in the Code.

34. The Syndicate of the Punjab University has recommended that an alternative Entrance Examination, in which certain scientific subjects will be included and an examination to be called the "Clerical and Commercial Examination," shall be held annually by the University, and the Faculty of Arts was requested to draw up a detailed scheme for the latter examination in consultation with the Text-Book Committee. The matter was referred to the Conference for suggestions by the Registrar at the request of the Arts Faculty. The Conference regretted their inability to take up the subject on the present occasion. The Registrar will be informed accordingly, and requested to move the Arts Faculty to settle the matter, as quickly as possible, in communication with the Text-Book Committee. The latter body also will be addressed on the subject.

ORDER.—Ordered that this Resolution be printed in the Gazette in English and the Vernacular, and that copies be supplied to the members of the General Educational Conference, to Commissioners and Deputy Commissioners, to Principals of Government, Board and Aided Colleges, and to Managers of Aided schools for the Secondary education of Natives.

1. These rules shall apply to the whole of the Punjab, except the Simla District, and shall take effect from the 15th of October 1889.

2. The local rate as fixed by Government under Section 5 (2) of Act XX of 1883 shall be assessed in each district by the Collector.

3. The local rate shall be collected by the Tahsíldárs through the agency of the Lambardárs, the accounts of the assessments being made out and kept by the Patwáris.

4. Where the demand for land revenue falling due within the year, for which the assessment of the local rate is made, is suspended, the demand on account of the local rate shall be suspended on the land, for which suspension of land revenue is granted, until such time as the demand for the suspended land revenue is enforced, at which time the demand for the suspended local rate shall be enforced, and the amount of such rate shall be levied.

Statement of Reasons.—The revision of the existing rules is necessitated by the withdrawal of the allowances for collection hitherto made to village headmen and Patwáris. The draft rules do not differ in any other respect from those at present in force. Rule 9 of the present rules has already been superseded by Rule 52 of the Patwáris and Kánúngo Rules published under Notification No. 74 of 1st March 1888.

Part V.

OF WATER-RATES.

21. *Charges for the use of water.*—The charge for the use of water shall be made on the area irrigated at the rates specified in the schedules for the time being in force, and subject to the following rules.

Section 36.

22. *Charge leviable on fallow land.*—When a field receives the first or preliminary watering, and afterwards no crop is sown, the lowest rate of charge for "lift" or "flow," as the case may be, shall be imposed: Provided that on the Lower Sohág and Pára Canal no charge shall be levied for any field which has not been sown, unless a crop of grass has been raised on it, or unless water has been allowed to run to waste in it, in both of which cases the lowest rate of charge for "lift" or "flow," as the case may be, shall be imposed.

Section 36.

22 *a*. *Charge leviable for a first watering when a crop is sown.*—When a field receives the first or preliminary watering, and afterwards a crop is sown, the full rate specified in the schedules for the description of crop sown shall be levied: Provided always that the schedules for the time being in force do not specifically provide for the particular case.

23. *Charge for mixed crops.*—If mixed crops be grown in the same field the occupier's rate shall be calculated on the highest rated crop.

24. *Charge for different crops grown in the same field.*—If different crops be grown in different parts of the same field, the occupier's rate shall be calculated on the highest rated crop, unless the division between the crops shall have been clearly defined by a ridge not less than half a foot high.

25. *Charge leviable on fields resown.*—When the original crop sown in a canal-irrigated field fails, and is ploughed up, and a fresh crop sown in the same season, the occupier's rate to be levied is that due on the crop which comes to maturity.

26. *Occupier's rate for fields partly irrigated.*—If only a portion of a field be irrigated, the occupier's rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated by a ridge not less than half a foot high.

Section 36.

27. *Charge leviable on fields partly irrigated from canals, partly from wells or other sources.*—Where a portion of a field has been irrigated with canal-water and a portion with water from a well or any other source, the whole field will be treated as irrigated with canal-water, unless a clearly distinguishable boundary demarcated by a ridge not less than half a foot high exists between the two portions. Where such a boundary exists, enquiry will be made whether the use of water from a well or any other source was owing to deficiency in the supply of canal-water, in which case the canal charge on the portion irrigated by canal-water should be reduced to lift rates.

Section 36.

28. *Use of canal water-courses for conveyance of water from a well or any other source.*—If water from a well or any other source is conveyed in the same channel as canal-water in the course of the same season, the whole of the irrigation from that channel during such season is liable to be treated as irrigation from the canal.

OF APPEALS AND REFERENCES, AND THE PROCEDURE THEREIN.

80. *Interpretation.*—In the following rules the expression "the Court" denotes the officer to whom in the particular case an appeal may be preferred under the provisions of the Act, or the rules made thereunder for the time being in force.

81. An appeal shall lie to the Deputy Commissioner from an order of the Divisional or Sub-Divisional Canal Officer or Deputy Collector passed under Rules 20, 70, and under Part V of these rules.

Except as expressly provided in these rules or in the Act, no appeal shall lie from any decision or order of the Divisional Canal Officer.

82. *Period for appealing.*—The period for presenting an appeal shall be 30 days, unless any other period is expressly prescribed, and in the latter case the period so prescribed.

Extension of time.

But any appeal may be admitted after the period prescribed when the appellant satisfies the Court that he had sufficient cause for not presenting the appeal within such period.

If the period prescribed expires on a day whe nthe Court is closed, the appeal may be presented on the day when the Court reopens.

83. *Calculation of period.*—The period prescribed shall be calculated from the date of the decision or order appealed against, and in computing such period the day when the decision or order was made, and the time requisite for obtaining a copy of the decision or order appealed against shall be excluded.

84. *Form of appeal.*—The application for admission of an appeal shall be stamped in accordance with the law in force relating to court fees, and shall be accompained by a copy of the decision or order appealed against, and shall state concisely the grounds upon which the appeal is preferred.

85. When an appeal is presented to the Deputy Commissioner pursuant to Rule 81, that officer may, if he thinks fit, after hearing the appellant, confirm the decision of the Canal Officer without further enquiry.

If the Deputy Commissioner considers that the appeal should be inquired into, he shall refer it to the Divisional Canal Officer for inquiry and report.

The Divisional Canal Officer shall thereon enquire into the appeal, following the procedure laid down in Rules 86 to 96, and shall report to the Deputy Commissioner the result of the enquiry with his recommendation as to the disposal of the appeal.

If the Deputy Commissioner concurs with the recommendation of the Divisional Canal Officer he shall pass an order in the terms thereof. If he dissents he shall refer the appeal for the decision of the Commissioner if it relates to Part V of these rules or to Rule 70, and of the Superintending Canal Officer in other cases.

The Commissioner or Superintending Canal Officer on receipt of an appeal so referred to him may at once pass orders on it, or may proceed as directed in Rules 86 to 96.

e.g., Sections 19 and 27 of Act VIII of 1873.

Nothing in this rule shall be interpreted as applying to cases in which by the provisions of the Act an appeal lies to the Commissioner.

86. *Procedure on admission of appeal.*—If the application be granted, an entry thereof shall be made in a register of appeals, numbered consecutively, and a day shall be fixed for the hearing of the appeal.

87. *Notice of hearing to be given.*—Notice of the date and place fixed for the hearing of the appeal shall be given to the appellant in such manner as the Court may direct, and to every other party to the case whose interest is opposed to that of the appellant in the manner hereinafter prescribed.

88. *Contents of notice.*—A written notice containing the title of the Court, the names of the parties, the date and place fixed for the hearing of the appeal and such other particulars as the Court may, by general or special order, direct, shall be issued in duplicate under the hand and seal of the Court.

89. *Mode of service.*—The notice shall be served by delivering one copy thereof, if practicable, to the person addressed therein, or, in his absence, to some adult male member of his family, or, if none such be found, by leaving such copy at the addressee's usual place of residence: Provided that, if the Court shall so direct, the notice may be served under registered cover sent through the Post Office.

90. *Acknowledgment of personal service.*—When personal service is effected, the addressee shall be required to acknowledge the service by affixing his signature, seal or mark on the back of the duplicate copy to be retained by the serving officer.

91. *Memorandum by serving officer.*—The serving officer shall in every case endorse on the duplicate copy a memorandum signed by him of the date and mode of service, and return such duplicate copy to the Court which issued it.

92. *Cost of service.*—The cost of serving any notice shall be borne in the first instance by the party appellant, and shall be paid to the proper officer of the Court before such notice is issued. The charge made for service shall be in accordance with the lowest civil process scale for the time being in force.

93. *Hearing may be postponed or adjourned.*—The hearing of an appeal may be postponed or adjourned from time to time, as the Court may see fit to direct by written order to any subsequent date, and notice of such date shall be given to the parties in such manner as the Court may direct.

94. *Attendance or representation of parties not essential.*—The attendance of the parties in person or by representative shall not be necessary at the hearing of any petition of appeal, or of any appeal, but any party so attending shall be entitled to be heard.

95. *Court to be satisfied before hearing that notice has been received by parties.*—The Court shall not proceed to the hearing of any appeal unless and until it is satisfied that notice of the date and place fixed for such hearing has been received by the parties concerned in sufficient time to permit them to appear or to be represented at such hearing: Provided that the Court may presume that notice has been received when a written notice has been served in any of the ways described in Rule 89 above: Provided also that an appeal may be heard and decided, notwithstanding the absence of any party who is shown to the satisfaction of the Court to be wilfully evading service of notice.

96. *Procedure on hearing*—

What parties present.

(*a*). The Court, before passing its order or decision on the appeal, shall record in writing which (if any) of the parties to the appeal are present, in person or by representative, at the hearing thereof.

Further inquiry by Appellate Court.

(*b*). The Court, if it think further inquiry necessary, may conduct such inquiry itself, and in such case shall be deemed to be an officer with the powers described in section 69.

The decision or order of Court.

(*c*). When the hearing of the appeal is concluded, the decision or order of the Court shall, when practicable, be pronounced forthwith, and shall be recorded in writing signed by the Court, and the substance thereof shall be explained to such of the parties or their representatives as are present when the decision or order is passed or given.

Translation thereof.

(*d*). Every decision or order recorded in English shall be translated into Urdu, and the translation shall be authenticated by the signature of the Court and filed with the proceedings.

97. *Copy of order to be sent to Subordinate Officer.*—A copy of the decision or order shall be transmitted by the Court to the officer from whose decision or order the appeal was preferred.

98. *Copies to be granted to parties.*—A copy of the decision or order of the Court, in English or Urdu, shall be granted to any person concerned or interested therein, who shall apply for the same, upon payment of the proper court fees and copying charges.

99. *Of re-hearing in certain events.*—If any party against whom an order or decision is made or given upon an appeal heard in his absence shall, within 30 days from the date of such order or decision, satisfy the Court that he had received no notice of the time and place fixed for the hearing thereof, or had not received such notice in sufficient time to permit him to appear, and that he did not wilfully evade service thereof, the Court may pass an order, if it think such order requisite for the ends of justice (and not otherwise), upon such terms as appear just, setting aside its previous decision or order, and grant a re-hearing, which shall be subject to the same rules as the hearing of an appeal.

100. *Power of revision by Financial Commissioner and Chief Engineer.*—The Financial Commissioner may at any time call for any case which has come before a Commissioner otherwise than under Section 19, or before a Deputy Commissioner, and the Chief Engineer may at any time call for any case which has come before a Superintending or Divisional Canal Officer, and pass such orders thereon consistent with the Act and these rules as may seem proper.

101. *Power of revision by Local Government.*—Orders passed by the Financial Commissioner shall be subject to review by the Local Government in the Revenue Department, and orders passed by the Chief Engineer to review by the Local Government in the Irrigation Branch, Public Works Department.

Statement of Objects and Reasons.

THE draft rule under Section 59 (1) (*b*) regarding the settlement of lands on the lapse or resumption of the land revenue corresponds with Rule D 3 I under the Land Revenue Act of 1871, and will take its place as Rule 60 A among the rules published under Notification No. 76 of 1st March 1888. In deciding whether to grant a sub-settlement to the late assignee or his heirs under this rule, the Collector will be guided by the principles laid down in Rule D 3 I of the old rules, which will be incorporated in the consolidated Circular of the Financial Commissioner upon Jágírs and Máfis.

The other rules correspond with so much of old rules under F II and G II of the Rules under the Land Revenue Act of 1871 as it is necessary to continue under the present Act.

The correspondence is as follows :—

Draft Rule.		Old Rule.	Draft Rule.		Old Rule.
1	...	F. II 1.	11	...	F. II 25.
2	...	Do. 4.	12	...	Do. 26.

The slight alterations made in the proposed rules are necessitated by the present Revenue Law and procedure. Rule 5 has been added as a safeguard, as action in accordance with Rules 3 and 4 can now be taken by any Assistant Collector of the 2nd Class, whereas under the old rules only a Tahsíldár specially empowered by the Deputy Commissioner could issue a warrant of arrest against a defaulter. The form of writ of demand is based on the form of warrant of arrest under the old rules. It will be observed that the writs numbered 3—6 will be addressed to the District Názir or a Kánúngo or other officer whose service counts as superior, and not to a mere revenue peon.

	(*b*) Reading petitions	40

The first paper in (*a*) Criminal Law, (*b*) Civil Law and (*c*) Revenue may be answered with the aid of books. The candidates shall not refer to any manuals, guides or books with indexes ; but merely to the text of the Acts and the Rules thereunder in which they are examined.

The questions in these papers shall not be such as can be answered by copying a passage from a book ; but shall be designed to test the practical knowledge of the candidates and shall be confined as much as possible to cases arising in ordinary practice, facts of probable occurrence being stated and the candidate being required to find and apply the law bearing on them.

The second papers in these subjects shall be answered without reference to books.

During the second Revenue paper English candidates will be examined separately *vivâ voçe* in the Settlement Reports of their several districts or in any Settlement Report which they may have selected and previously notified through the Deputy Commissioner. Native candidates not acquainted with English will be similarly examined in Barkley's " Directions to Settlement Officers."

The *vivâ voce* tests will be conducted and marks awarded, under the supervision of the Commissioner of the Lahore Division, by the Secretary of the Central Committee of Examination and the Extra Assistant Commissioner deputed to assist him.

The colloquial examination (Language [*c*]) will consist of conversation between the candidate and the headman of a village, and is meant to test the candidate's knowledge of the vernacular of the part of the Province in which he has been stationed.

VII.—There are two standards of examination—Higher and Lower—with one set of papers. A candidate who passes at an examination by the Lower Standard only must go up at each succeeding examination till he shall have passed by the Higher Standard in all subjects which he is required to take up.

VIII.—Candidates may pass by the Higher or Lower Standard in any or all of the groups of subjects.

A candidate will be held to have passed in a group by the Higher Standard if he obtains two-thirds of the maximum of marks allotted to that group, and when a group contains more than one subject, one-half of the maximum of marks allotted to each of its subjects. He will be held to have passed by the Lower Standard if he obtains similarly one-half of the maximum of marks allotted to a group and one-third of the maximum of marks allotted to each subject.

Provided that for the Group "Treasury and Local Funds," in order to qualify a candidate for a pass by the Higher Standard, two-thirds, and for a pass by the Lower Standard, one-half of the maximum of marks allotted to the subject "Treasury" must be obtained, in addition to the marks prescribed for the subject "Local Funds."

IX.—After each examination the names of those candidates who have passed by either standard will be published in the Gazette. Candidates will be noticed as having passed "with credit" in—

(1) group A, or

(2) group B and C, or

(3) group D

if they obtain three-quarters of the maximum of marks allotted to the group, or groups and, when the group contains more than one subject, two-thirds of the maximum of marks allotted to each subject. Native candidates who are exempt from examination in group C will be passed "with credit" if they obtain three-quarters of the maximum of marks allotted to group "B" alone.

X.—In making the calculation under Rules VIII and IX, the marks allotted to any question which a candidate is not required to answer and to any paper or subject in which he is not required to be examined shall first be deducted from the maximum of marks allotted to the paper, subject or group as the case may be.

XI.—Every Assistant and Extra Assistant Commissioner is required to pass the Departmental Examination by the Higher Standard. This rule does not apply to Extra Assistant Commissioners who, while serving as Tahsíldárs or Munsiffs, have already passed or been exempted from this examination.

XII.—Native candidates generally will not be required to pass in group D, nor, unless certified by the Deputy Commissioner of the district from which they come to have a good knowledge of English, will they be examined in group C, nor in any of the books, &c., entered in the Schedule annexed of which there does not exist a translation approved by Government.

XIII.—English or Native gentlemen who enter the Government service as Officiating Extra Assistant Commissioners are considered to be on probation. No officer so officiating will be confirmed in his appointment until he has passed at least the examination for the Lower Standard; and an officer failing to pass in two successive years will, unless there be special reasons to account for his failure, be removed from his officiating appointment.

XIV.—An Extra Assistant Commissioner who is not exempted from examination will not be promoted from the lowest grade until he has passed by the Higher Standard.

XV.—No Assistant or Extra Assistant Commissioner will be invested with the powers of a Magistrate or Munsiff of the 2nd Class until he has been six months in public employ and has passed the examination by the Lower Standard in Law and Language, or be invested with the powers of a Magistrate or Munsiff of the 1st Class until he has exercised 2nd Class powers for six months and has passed by the Higher Standard in the same subjects.

EDUCATION.

Proceedings of the Hon'ble the Lieutenant-Governor of the Punjab, in the Home (Education) Department, No. 350, dated 8th November 1889.

READ—

Government of India Resolution No. 6—371-383, dated the 17th August 1889.

Read again—

Government of India letter, Home Department (Education), No. 309, dated 20th August 1888.

RESOLUTION.—In the Government of India Resolution No. 6—371-383, dated the 17th August 1889, the replies received from Local Governments and Administrations to letter Nos. 10—382-391, dated 31st December 1887, from the Government of India in the Home Department, regarding moral and physical training, have been passed in review, and certain suggestions have been recorded.

2. In paragraph 4 of the Resolution of the Government of India it is said that "as a corollary to the action already undertaken, or about to be undertaken, to promote physical education, a system of marks and prizes, which no doubt will be largely supplied by private liberality, for proficiency in gymnastics and in athletic sports, should be everywhere introduced, where gymnasia and play-grounds have been attached to the schools." The scheme adopted in the Punjab provides for the award of prizes at District and other athletic tournaments; on the question of introducing a regular system of marks and prizes in individual schools that are provided with gymnasia or play-grounds, the Lieutenant-Governor wishes to consult the next Educational Conference before passing orders.

3. In paragraph 6 of the Resolution, the fact is recognised that rules have been adopted for the award of certificates for good conduct to school boys and for the report of serious cases of bad conduct to the parent or guardian of the offender; and a hope is expressed that the Government of the Punjab will follow the example of several other Provinces by introducing a system of good conduct registers. This question was considered by the Educational Conference which sat in 1888, and that body did not recommend the adoption of the system. But as reasons were not given the question will be placed before the next Conference for reconsideration, with a request that, if the introduction of such a system in the Punjab should still be considered undesirable or impracticable, the objections may be fully stated for His Honor's consideration.

4. In paragraph 10 of the Resolution an opinion is expressed that it is desirable to remodel the inter-school rules of other Provinces on the basis of those in force in Bengal and the North-Western Provinces and Oudh. The inter-school rules that have been adopted in the Punjab are very similar, so far as they go, to those in force in the Provinces above referred to; and the Educational Conference will be requested to consider what additions can be made to them with advantage.

5. It is further desired in paragraph 10 that, when the rules have been revised and determined, the Punjab University should be invited to assist towards securing their adoption in unaided institutions by denying affiliation to such as do not adopt them; and the Governor-General in Council earnestly trusts that, when invited, the University will throw the weight of its great influence into the scale of order and discipline.

6. The Educational Conference which met in 1888 considered that as the Unaided Schools and Colleges in the Punjab were few in number, the extension of the inter-school rules to such institutions was of comparatively small importance; and they further remarked that owing to the constitution of the Punjab University, and more particularly to the admission of private students to all its examinations, and the absence of any provision for the affiliation of schools and colleges, the influence actually at the command of the Senate over Educational institutions was more restricted than is the case with other Universities. On these grounds they thought it unnecessary to urge any decisive action on the Senate of the Punjab University with regard to this matter. They suggested, however, that Government might invite the Managers of such schools and colleges to agree to the rules adopted for Board and Aided Schools, and this was done accordingly.

7. His Honor the Lieutenant-Governor now proposes to lay down a rule that no student of any Unaided School or College, in which the inter-school rules have not been introduced, shall be eligible for any scholarship paid from public funds; and that no such scholarship shall be tenable in any school or college in which these rules have not been accepted.

8. The University will be addressed regarding the inter-school rules as desired by the Government of India. His Honor is inclined to think that the University might be disposed to adopt a rule regarding University Scholarships similar to that which it is proposed to apply to scholarships paid from public funds, as explained in the preceding paragraph. The Senate will be invited to consider also the expediency of providing for a system of affiliation, of excluding from its examinations candidates sent up by institutions which are not affiliated, and of refusing affiliation to any institution which has not accepted the inter-school rules. His Honor is, however, in some doubt as to the manner in which such an arrangement would be regarded by the public.

9. In the 11th and 12th paragraphs of the Resolution the question of providing for the efficient training of teachers is discussed. The Central Training College at Lahore was established eight years ago, and has worked successfully. There are also four Normal Schools, the fourth having been established in 1886, when arrangements were made to raise the number of stipends tenable in these institutions from Rs. 170 to Rs. 300. The measures recently introduced in this Province have caused a considerable increase in the demand for trained teachers, which is consequently greater than the supply, more especially as regards Junior Anglo-Vernacular teachers and Vernacular teachers for Primary Schools. It has been determined accordingly to increase the number of stipends provided for Junior Anglo-Vernacular teachers. His Honor does not consider it desirable to increase the number of stipendiaries in the Senior Anglo-Vernacular class of the Central Training College for which it may be hoped that non-stipendiary students will be shortly forthcoming; nor is it necessary to allot additional stipends to the existing Normal Schools, as it is difficult to find competent candidates for those already available; but the expediency of establishing a fifth Normal School will be discussed at the next Educational Conference.

10. In the latter part of paragraph 12 a desire is expressed that the University should be invited to make the employment of certificated teachers in Unaided Schools a condition of affiliation. The Educational Conference will be consulted as to the expediency of offering this suggestion to the Punjab University, but His Honour the Lieutenant-Governor has serious doubts as to the advisability of introducing any such rule in this Province.

11. In the 13th paragraph of the Resolution an opinion is expressed that the suggestion contained in paragraph 11 of the Government of India letter No. 10--336, dated 31st December 1887, to engage trained head masters in England for a definite period of five to seven years, in order to introduce and establish a standard of discipline for the emulation of other schools, is deserving of careful attention, and the Punjab Government is invited by the Governor-General in Council to give the proposal their further consideration. His Honor does not think that the proposal in question is practicable or advisable in the Punjab at present, unless perhaps in connexion with the Central Model School which is attached to the Central Training College, and on this point the Educational Conference will be consulted.

12. The 14th paragraph deals with the question of the extension of a system of teaching which has a direct bearing upon personal conduct, and the provision of moral text-books. The Government of India is now satisfied that the end in view would not be attained by prescribing for use in colleges and schools a treatise on ethics or a book of didactic instruction in the rules and principles of conduct; it considers, however, that the interests of morality may be promoted by the use in schools of text-books having a direct bearing on conduct. The Calcutta University has, it is said, already taken measures to provide for the preparation of a text-book for the use of scholars preparing for matriculation, in which about one-half of the prose and poetry is to consist of extracts having a direct bearing on conduct. The provision of text-books compiled on similar lines for lower classes in Bengal is suggested; it is added that similar action in other Provinces is called for; and the Governor-General desires that each Local Government should at once take the matter in hand, and, either by the appointment of a Committee or otherwise, provide for the revision of existing Readers or the compilation, where necessary, of an entirely new set of books. Finally, a wish is expressed that the progress made in this undertaking in each Province should from time to time be reported.

13. In the Punjab a Text-Book Committee already exists, which has done much for the provision and compilation of suitable text-books. This

Committee has been recently placed on an improved footing; its powers have been increased; and arrangements have been made to provide it with funds that will enable it to carry on the duties assigned to it with increased activity.

14. The Punjab Conference of 1888 endorsed the views, that had been already adopted by the Punjab Text-Book Committee, to the effect that moral instruction should be conveyed through the medium of the ordinary Readers both in English and in the Vernacular. They proposed, however, that in the High Department a moral text-book should be added, dealing with virtues and vices and illustrated extensively with moral stories; that in the compilation of this work extracts from great writers should be introduced as far as possible; and that extracts from the sacred writings of various religions might find a place in the book, provided that they should contain nothing which could prove objectionable to the feelings of persons of any religion. These views, which were approved by His Honor the Lieutenant-Governor, are set forth in paragraph 27 of Punjab Government Resolution No. 144, dated 25th July 1888.

15. The approval of the Governor-General in Council of the suggestions of the Educational Conference on the subject of discipline and moral and physical training in schools and colleges was conveyed in a letter No. 309, dated 20th August 1888, from the Home Department, in which the Punjab Government was at the same time requested, before authorizing the adoption of any moral text-book in Punjab schools or colleges, to forward a copy for the information of the Government of India, which had at that time the general question of the preparation of such a text-book under consideration.

16. A new Reader for the use of students preparing for matriculation has been lately compiled by Mr. Robertson, Professor of English Literature in the Lahore Government College. Due consideration has been given to the moral tone of the pieces that have been inserted, though it is intended that this Reader shall be supplemented by the Moral Reader recommended by the Educational Conference, the preparation of which has been taken in hand by Mr. Sime of the Punjab Education Department, at present employed as tutor to His Highness the Mahárája of Patiála. The former of these works has been approved by the Text-Book Committee, but neither of them can be finally adopted without the approval of the University, should that body adopt the recommendation that has recently been made to it at the suggestion of the Educational Conference, and fix an Entrance Course in English.

ORDER.—Ordered that this Resolution be printed in the *Punjab Government Gazette*, both in English and the Vernacular, and that it be circulated for information to all Commissioners, Deputy Commissioners, Inspectors of Schools, Principals of Government and Aided Colleges, and Managers of Aided Schools;

also that it be communicated to the Registrar, Punjab University, for the information of the Senate;

also that it be forwarded to the Government of India, in the Home Department, for information.

RESOLUTION.

Calcutta, the 3rd December 1889.

READ—

Proceedings of the Government of Bombay in the Financial Department for February 1887, No. 265.

Letter to the Government of Bombay, No. 6665, dated 19th December 1887.

Letter from the Chief Commissioner of Assam, No. 122, dated 11th January 1888.

Letter to the Chief Commissioner of Assam, No. 1424, dated 16th March 1888.

Letter from the Chief Commissioner of Assam, No. 1042, dated 9th April 1888.

Letter to the Chief Commissioner of Assam, No. 6348, dated 29th November 1888.

Letter from the Chief Commissioner of Burma, No. 383—5 A., dated 13th September 1888.

RESOLUTION.—In its Proceedings for February 1887, the Government of Bombay, on the advice of the Legal Remembrancer, decided that those portions of the salaries of certain mechanics employed in cotton mills in Ahmedabad which under agreement were paid by their employers in England were liable to taxation under Act II of 1886 (Part IV of the Second Schedule).

2. In January 1888, the Chief Commissioner of Assam asked whether commissions earned by managers and assistants of tea concerns in India, but paid in England and not remitted to India, are liable to income tax.

3. In September 1889, the Chief Commissioner of Burma transmitted for orders representations made on behalf of certain members of the American Baptist Mission and the employés of the Irrawaddy Flotilla Company, praying to be exempted from the taxation of such portion of their income as was not paid in British India. In the case of the Missionaries it was contended that their income or salary was derived from donations in the United States, and that the portion of it paid in that country never reached India. In the case of the employés of the Irrawaddy Flotilla Company it was urged that the portion of their salaries paid in Scotland should be exempted.

4. These cases have now been fully considered, and the Governor-General in Council is advised that in all of them the incomes are liable to the tax under the terms of Section 3 (5) of the Act, since they accrue and arise (though they may not be received) in British India. The definitions of "salary" and "income" given in the Act no doubt overlap each other, but there is no reason why the one word should not be construed as supplementing rather than restricting the other; and although salary includes commissions, perquisites, and profits of an employment only when received in British India, yet if profits accrue or arise in British India to any person resident in British India by reason of his employment, and such profits are not received in this country (as in the cases in question), they are taxable as "income" under Part IV though, if received here, they would be taxable as "salary" under Part I of the Second Schedule to the Act.

5. The Governor-General in Council accordingly directs that the decision stated in the foregoing paragraph be acted upon in future by all local authorities.

ORDER.—Ordered, that the foregoing Resolution be communicated to all Local Governments and Administrations for information and guidance.

RESOLUTION.

Calcutta, the 29*th November* 1889.

Read the following Financial Resolutions:—

No. 173-G., dated the 12th August 1864 ;
No. 3489, dated the 2nd October 1877 ; and
No. 430, dated the 14th May 1878.

RESOLUTION.—By these Resolutions Local Governments and Administrations and the several Departments of the Government of India are vested with the power—

(1) to sanction petty or moderate increases of establishments subordinate to them, the cost of which is Imperial, provided that there is sufficient budget provision for the expense under the same head of charge under any detailed heads other than Gazetted Officers' Salaries ; and

(2) to sanction general revisions of such establishments, subject to the following conditions :—

(*a*) If the additional expense which a revision may entail in the particular establishment cannot be met by an immediate equivalent reduction in the same Department, it must be met by a permanent reduction of fixed expense in some other Department which is charged to the same major head of account.

(*b*) No appointment may be created with a pay of more than Rs. 250 a month, and no addition may be made to the pay and allowances of any officer if they exceed, or would after the addition exceed, Rs. 250 a month.

(*c*) No appointment of which the pay and allowances are more than Rs. 250 a month may be abolished, and the pay and allowances of no such appointment may be reduced.

(*d*) No class or grade of officers may be created or abolished, and the pay of no class or grade of officers may be raised or reduced.

(*e*) The right of forbidding alterations in rates of pay or allowances, which in its opinion would produce inconvenience in other Provinces, is reserved to the Government of India in the Finance Department.

All sanctions accorded in exercise of these powers are reported to the Government of India in the Finance Department in quarterly statements, and petty or moderate increases of Imperial establishments, sanctioned under these orders without an equivalent reduction in some other establishment, are considered only temporary, unless confirmed by the Government of India in the Finance Department.

2. The term "petty or moderate increases" is indefinite, and, with a view to fixing a definite limit within which a Local Government or a Department of the Government of India may sanction increases to Imperial establishments without making an equivalent reduction in another establishment charged to the same major head of account, the Governor-General in Council has prescribed the following rule :—

A Local Government or a Department of the Government of India may sanction increases of Imperial non-gazetted establishments without making an equivalent reduction in the same Department : provided that—

(1) the aggregate of the increases sanctioned does not exceed Rs. 3,000 in any year;

(2) no appointment of which the salary exceeds Rs. 50 a month may be sanctioned without reference to the Government of India in the Finance Department;

(3) there is sufficient budget provision under the same head of charge under any detailed heads other than Gazetted Officers' Salaries.

All increases of establishment sanctioned under these orders must be reported to the Finance Department in quarterly statements. The sanctions may be held to have been confirmed unless exception is taken to any of them by the Finance Department on a review of the statements.

ORDER.—Ordered, that this Resolution be communicated to all Local Governments and Administrations ; to all Departments of the Government of India ; to the Comptroller and Auditor-General, with the request that Rule II (2), Chapter 16, Civil Account Code, may be revised ; and to all Accountants-General and Comptrollers.

RESOLUTION.

Calcutta, the 29th November 1889.

READ again the following Resolutions in this Department :—

No. 3922, dated 29th December 1870.

" 474 " 22nd April 1884.
" 251 " 14th January 1889.

" 6057 " 29th November 1889.

RESOLUTION.—In clause (*e*), paragraph 6, of the Resolution of the 22nd of April 1884, read in the preamble, it was directed that, in cases of petty excesses over the Budget grants of the year requiring the sanction of the Government of India, application for such sanction should be made at the end of the year in a consolidated statement. These statements are not received from all provinces and a uniform system is not adopted in the preparation of those that are received. In the case of some provinces, only Civil expenditure finally brought to account in the Civil Department is entered, and in the case of others Public Works expenditure and expenditure on Military Works are included. With the object, therefore, of securing uniformity and of requiring formal sanction to any excess over a sanctioned grant to be obtained, the Governor-General in Council directs that in future each Civil Accountant-General and Comptroller shall submit annually to the Government of India, through the Local Government concerned, a consolidated statement showing for each major head of expenditure in the Civil Department only—leaving other departmental expenditure to be dealt with as required by paragraph 3 of this Resolution,—

(1) the amount of excess expenditure ;

(2) the amount of such excess already sanctioned (with No. and date of Government order) ; and

(3) the amount still requiring sanction—

(*a*) of the Government of India, and

(*b*) of the Local Government.

[When some of the minor heads under a major head are Imperial and some Provincial, the statement should contain details of such minor heads also.]

2. This statement should be furnished to the Local Government on the date prescribed for the submission of the Annual Appropriation Report to the Comptroller and Auditor-General.

3. Statements in the same form dealing with expenditure in the Public Works, Military, Marine (Imperial), and Post Office Departments should be prepared by the chief Account Officers of those Departments, and submitted to the Finance Department, through the administrative departments concerned, on the dates fixed for submission of the Departmental Appropriation Reports to the Comptroller and Auditor-General. The statements of Military and Imperial Marine expenditure should be in greater detail than is required in the case of the other departments, and should show the variations from the Budget grants in the case of each minor head of the Military and Marine estimates.

4. The Resolutions read in the preamble define the rules under which expenditure is limited by the sanctioned grant in each case, and the procedure to be followed when the grant is exceeded, or is likely to be exceeded. The stricter control now exacted requires the modification of some of those rules, and the following orders will in future regulate the procedure of Account Officers and of Local Governments and Departments of the Government of India in administering the Budget grants. Special orders defining the powers of the Military Department are about to be issued in a separate Resolution :—

(1) Saved for exceptional reasons, expenditure for which no provision has been made in the estimates of the current year should not be proposed, and cannot be sanctioned. In the absence of such reasons, the Government of India assumes that any expenditure proposed is intended to have effect from the beginning of the following financial year, and not earlier.

(2) Expenditure which cannot be met from the grant made at the beginning of the year requires *ipso facto*, and apart from all other rules, the sanction of the Government of India in the Finance Department, or, in the cases provided for in (5), (6), and (7) below, of the Local Government or the Department of the Government of India concerned. It has been laid down in Financial Resolution No. 251, dated 14th January 1889, that every application for such sanction should be accompanied by a statement showing how the expenditure is proposed to be met. A copy of this statement should be forwarded by the sanctioning authority, together with the order of sanction, to the Audit Office. Where re-appropriation is made from an existing grant, the Audit Office will conduct the audit against the reduced grant.

Sanction to an application of this nature authorises the expenditure during the year.

(3) It is a very important part of the duty of the head of an Audit Office to immediately warn the Government or Department concerned of the first appearance of any excessive porportionate outlay under any grant ; and when the monthly abstract exhibits such excess, the Government of India expects that the head of the Audit Office will at once inform and warn the Local Government, or, if the administration be Imperial, the Department of the Government of India concerned.

(4) A Local Government or a Department of the Government of India cannot, without reference to the Finance Department, sanction expenditure which will cause an excess over the Budget grant for a major head which is wholly Imperial.

(5) A Local Government may, without reference to the Government of India, sanction expenditure in excess of the Budget grant under any Provincial or Local major or minor head, provided the increase does not cause the aggregate Budget grant for Provincial and Local expenditure to be exceeded. In these cases specific reappropriation is required, as explained in Rule 2.

(6) In the case of major heads divided in a fixed proportion between Imperial and Provincial, and also in the case of minor heads similarly divided, a Local Government may, without reference to the Government of India, sanction expenditure in excess of the Budget grant, provided specific reappropriation from Imperial and Provincial grants respectively is made as explained in Rule 2.
